Extended medical care for home nursing and rehabilitation are also available.

- **Other extended benefits** for your greater peace of mind are available, such as full coverage on kidney dialysis treatment and pregnancy complications (see notes 2 and 7). Traditional Chinese medicine treatment during a hospital stay/after a hospital stay or day-case surgery are also covered.

The benefits we will pay under the plan depend on the annual limit and lifetime limit applicable to the plan. Please see the benefit schedule for details.

Various cash benefits

The plan offers various cash benefits as financial support to the life insured without affecting the annual deductible (if applicable):

- Hospital cash benefit for confinement in a general ward of a government hospital, even if no charges have been incurred for treatment during confinement.
- Hospital cash benefit for confinement in a room level lower than the room level entitled under the plan in private hospitals.
- Cash benefit for selected surgical procedures (i.e. OGD and Colonoscopy) in an outpatient setting. This cash benefit paid does not affect the no-claim period (see note 8).

Please see the benefit schedule for details.

Medical green passage service (see note 9)

ManuShine offers a medical green passage service which provides the life insured with a privileged medical referral service. In a few simple steps, the life insured can book outpatient and inpatient medical consultations with medical specialists under a list of designated network hospitals in mainland China. The service provides extra convenience to the life insured without worrying about booking and queuing.

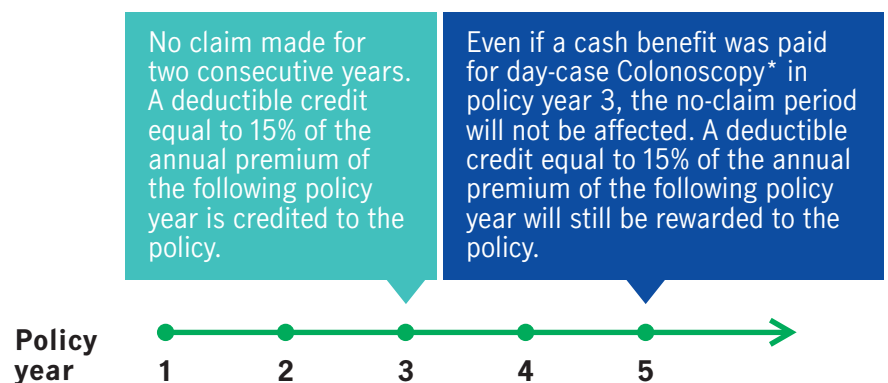

Extensive hospital networks

The plan offers extensive coverage of a designated hospital network throughout cities in **mainland China including grade 3 hospitals and selected non-grade 3 hospitals** (see remark (a) under the benefit schedule) which ensures better medical coverage for the life insured.

No-claim deductible credit

If the plan fulfills the 2-year no-claim period (see note 8), ManuShine will provide a reward to your plan with a deductible credit (see note 10) equal to 15% of the annual premium of the following policy year. This credit can be used to offset any deductible when a claim is made.

* The above illustrative example assumes that no claim other than those made for this cash benefit has been submitted under this plan.

Other features

Flexible option to reduce the annual deductible once, regardless of your medical condition, either at age 55, 60 or 65

To offer you more flexibility and get prepared for your retirement, you can apply to lower the annual deductible of your plan without providing further evidence of insurability once only, either at age 55, 60 or 65 of the life insured (see note 11).

Stay healthy with wellness checkpoint (see note 13)

To encourage the life insured to stay healthy, ManuShine offers a free health assessment at the end of every two consecutive policy years as long as the plan has been effective for two consecutive policy years and the life insured has reached the age of 30 at the beginning of the second consecutive year. Health assessment packages are tailored to meet one's changing needs as the life insured moves through different stages of life.

Take care of the life insured's well-being round the clock and around the world

Illustrative example

Enjoy full reimbursement for major items of medical expenses

Mrs Wong, age 45, purchased **ManuShine Healthcare Series (Premier Plan) with an annual deductible option of HK\$8,000** to safeguard her health.

At age 60, she experienced pain and stiffness in her right knee. She was diagnosed with right knee osteoarthritis and was advised to undergo total knee replacement surgery. She stayed in a standard private room of a private hospital in Hong Kong for 6 days. After returning home, she continued to receive outpatient care and ancillary service.

Medical services received	Billed medical expenses	
Pre-confinement		 Full cover[^]
• Pre-hospitalization outpatient (1 visit)	HK\$1,500	
<hr/>		
Confinement		
• Hospital room & board (6 days)	HK\$6,650	
• Doctor's visit (7 days)	HK\$8,400	
• Hospital services	HK\$65,600	
• Surgeon's fee	HK\$75,000	
• Anaesthetist's fee	HK\$25,000	
• Operating theatre fee	HK\$9,330	
<hr/>		
Post-confinement		
• Post-hospitalization outpatient (2 visits)	HK\$3,000	
• Post-hospitalization ancillary service (6 visits) [@]	HK\$6,000	
<hr/>		
Total	HK\$200,480	
Less: Annual deductible	(HK\$8,000)	
Medical expenses reimbursable under the plan	HK\$192,480	

With ManuShine Healthcare Series, **Mrs Wong only needs to pay the annual deductible and doesn't have to worry about any other out-of-pocket payments.** In addition to the hospitalization treatment, her medical expenses from pre- to post-hospitalization are fully covered[^].

If Mrs Wong's plan also fulfills the 2-year no-claim period (see note 8), she can use the deductible credit, which is equal to 15% of the annual premium, to offset the HK\$8,000 annual deductible when the claim is made.

[^] Full coverage pertains to the above scenarios only.

[@] The benefit limit is HK\$45,000 per policy year.

(The above example is hypothetical and for illustrative purposes only. It is made under the assumptions that the respective benefit limits had not yet been reached and the post-hospitalization outpatient and ancillary services were received within 60 days and 90 days respectively after Mrs Wong was discharged from the hospital. It is also made under the assumption that no claim had been made previously under this plan when the claim was made.)

As a result, you are advised to save enough money to cover the premiums in the future. The premium pays for the insurance and related costs.

2. Cooling-off period (applies if this plan is a basic plan)

If you are not happy with your policy, you have a right to cancel it within the cooling-off period and get a refund of any premiums and any levy paid (if applicable). To do this, you must give us, within the cooling-off period, your written notice signed by you at Individual Financial Products, Manulife (International) Limited, 22/F, Tower A, Manulife Financial Centre, 223-231 Wai Yip Street, Kwun Tong, Kowloon, Hong Kong. In other words, your written notice to cancel your policy must reach us directly at the relevant address within a period of 21 calendar days immediately following the day we deliver to you or your nominated representative the policy or a notice telling you about the availability of the policy and the expiry date of the cooling-off period, whichever is the earlier. After the expiration of the cooling-off period, if you cancel the policy, there will be no premium refund.

3. Premium adjustment

The premiums will vary depending on the age of the life insured and are not guaranteed. We will regularly review our products, including the premium rates, to make sure we can continue to provide cover. When reviewing the premium rates, we will consider our claims experience, medical cost inflation, and other factors. We can change the premium rates at the time of renewal on each policy anniversary and a written notice on the relevant change would be given in advance. You can continue to enjoy the coverage by paying the premium due within 31 days from premium due date.

You may browse the following website to understand the historical premium increase rates of this product. This is only for reference purposes. Historical premium increase rates are not an indicator of future premium increase.

www.manulife.com.hk/link/historical-premium-increase-rates-en

4. Premium term and result of not paying the premium

You should continue to pay the premium (or premiums) on time throughout the benefit term. If you do not pay a premium on time, you have 31 days from the due date to pay it, during which the policy will continue in force. If we do not receive the premium after the 31-day period ends, the policy will end and the life insured will not be covered.

5. Credit risk

Any premiums you paid would become part of our assets and so you will be exposed to our credit risk. Our financial strength may affect our ability to meet the ongoing obligations under the insurance policy.

6. Currency risk

This plan is available in foreign currency. You should consider the potential currency risks when deciding which policy currency you should take. The foreign-currency exchange rate may fall as well as rise. Any change in the exchange rate will have a direct effect on the amount of premium you need to pay and the value of your benefits in your local currency. The risk of changes in the exchange rate may cause a financial loss to you. This potential loss from the currency conversion may wipe out the value of your benefits under the policy or even be more than the value of benefits under your policy.

7. Inflation risk

The costs of living and healthcare in the future are likely to be higher than it is today due to inflation. As a result, your current planned benefits may not be enough to meet your future needs.

8. Condition for ending the plan

This plan will end if:

- i. the life insured dies;
- ii. you fail to pay the premium within 31 days after the due date;
- iii. the aggregate benefits paid under the relevant insurance policies reach the lifetime limit;
- iv. we approve your written request to end this plan;
- v. the policy to which this plan is attached ends or matures (if this plan is a supplementary benefit); or
- vi. you cash in the policy or we apply the non-forfeiture benefit (if any) to your policy (if this plan is a supplementary benefit);

whichever happens first.

In the case of ManuShine Healthcare Benefit, the plan shall be terminated upon receipt by us of such request within 31 days before the due date for payment of any premium, at the policyowner's written request and accompanied by the plan for appropriate endorsement. Under such circumstances, the plan will terminate as of such premium payment due date.

The written request mentioned above should be signed by you and sent to our address in Hong Kong as stated at the end of this product leaflet, attention to 'Individual Financial Products'.

Once terminated, this plan shall cease to have effect. Where this plan is terminated during the policy year, no part of the premium will be refunded, irrespective whether a claim has or has not been made in that policy year.

9. Renewal

If the plan is no longer offered, we will endeavor to enroll you in another medical plan available at that time. We reserve the right to revise the benefits, terms and conditions and premiums under the plan upon renewal. Any such revision and adjustment will apply to the renewed plan automatically unless you cancel the plan by a written notice within 30 days after the renewal takes effect in which case the plan will end.

Applicable to plan with 'worldwide' as the option of area of cover: we reserve the absolute right to change the area of cover from 'worldwide' to 'worldwide exclude USA' at any time if the life insured has taken up residence in the USA for at least 183 days in the past 12 months.

10. Suicide

No death benefit will be payable if the life insured commits suicide, whether sane or insane, within 1 year of:

- i. the policy issue date or the policy year date;
- ii. the effective date of reinstatement; or
- iii. the date of endorsement or the effective date of change (only applicable to ManuShine Healthcare Benefit added after the policy has been issued);

whichever is later.

11. Claims

When the life insured is entitled to benefits payable under another insurance policy, whether issued by us or another insurance company, or reimbursed through any other means, the hospital benefits under the plan shall be limited to the lesser of

- i. the balance of expenses not covered by benefits payable under another insurance policy or any other means; and
- ii. the maximum benefit specified in the benefit schedule.

12. Reasonable and customary and medically necessary

We will not cover confinement/stay, treatment and/or charges incurred relates to or arises as a direct or indirect result of any treatment, investigation, services or supplies which are not medically necessary; or any charges which exceed the 'reasonable and customary' charges.

'Reasonable and customary' shall mean a charge for medical care which does not exceed the general level of charges including but not limited to the length of confinement being made by medical service providers of similar standing in the locality where the charge including but not limited to the length of confinement is incurred for similar treatment, services or supplies to individuals of the same sex and age, for a similar disease or injury. The reasonable and customary charges shall not in any event exceed the actual charges incurred. In determining whether an expense including but not limited to the length of confinement is reasonable and customary, we may make reference to the followings (if applicable):

- i. the gazette issued by the Hong Kong government which sets out the fees for the private patient services in public hospitals in Hong Kong;
- ii. industrial medical fee survey;
- iii. internal claim statistics;
- iv. extent or level of benefit insured; and/or
- v. other pertinent source of reference.

- i. is consistent with the diagnosis and customary medical treatment for the condition in Hong Kong or Macau,
- ii. is in accordance with standards of good medical practice in Hong Kong or Macau,
- iii. is not for the convenience of the life insured or the doctor, and
- iv. cannot be safely delivered in a lower level of medical care.

- ii. 30 days after the effective date of reinstatement; or
- iii. 30 days after the date of endorsement or the effective date of change of this plan/plan upgrade, whichever is later (only applicable to ManuShine Healthcare Benefit added after the policy has been issued).

Please also refer to 'Effective Date of Benefits' in the Policy Provisions or Benefit Provisions for detailed terms and conditions.
