**Straddle Options** Certain Funds may enter into differing forms of straddle options ("Straddle"). A Straddle is an investment strategy that uses combinations of options that allow a Fund to profit based on the future price movements of the underlying security, regardless of the direction of those movements. A written Straddle involves simultaneously writing a call option and a put option on the same security with the same strike price and expiration date. The written Straddle increases in value when the underlying security price has little volatility before the expiration date. A purchased Straddle involves simultaneously purchasing a call option and a put option on the same security with the same strike price and expiration date. The purchased Straddle increases in value when the underlying security price has high volatility, regardless of direction, before the expiration date.

#### (d) Swap Agreements

Certain Funds may invest in swap agreements. Swap agreements are bilaterally negotiated agreements between a Fund and a counterparty to exchange or swap investment cash flows, assets, foreign currencies or market-linked returns at specified, future intervals. Swap agreements are privately negotiated in the over-the-counter market ("OTC swaps") or may be cleared through a third party, known as a central counterparty or derivatives clearing organisation ("Centrally Cleared Swaps"). A Fund may enter into asset, credit default, cross-currency, interest rate, total return, variance and other forms of swap agreements to manage its exposure to credit, currency, interest rate, commodity, equity and inflation risk. In connection with these agreements, securities or cash may be identified as collateral or margin in accordance with the terms of the respective swap agreements to provide assets of value and recourse in the event of default or bankruptcy/insolvency.

Centrally Cleared Swaps are marked to market daily based upon valuations as determined from the underlying contract or in accordance with the requirements of the central counterparty or derivatives clearing organisation. Changes in fair value, if any, are reflected as a component of net change in unrealised appreciation/(depreciation) on the Statement of Operations. Daily

changes in valuation of centrally cleared swaps ("Swap Variation Margin"), if any, are recorded as a receivable or payable for the change in value as appropriate on the Statement of Assets and Liabilities. Centrally Cleared and OTC swap payments received or paid at the beginning of the measurement period are included on the Statement of Assets and Liabilities and represent premiums paid or received upon entering into the swap agreement to compensate for differences between the stated terms of the swap agreement and prevailing market conditions (credit spreads, currency exchange rates, interest rates, and other relevant factors). Upfront premiums received (paid) are initially recorded as liabilities (assets) and subsequently marked to market to reflect the current value of the swap. These upfront premiums are recorded as realised gains or losses on the Statement of Operations upon termination or maturity of the swap. A liquidation payment received or made at the termination of the swap is recorded as realised gain or loss on the Statement of Operations. Net periodic payments received or paid by a Fund are included as part of realised gains or losses on the Statement of Operations.

For purposes of applying certain of the Fund's investment policies and restrictions, swap agreements like other derivative instruments, may be valued by the Fund at fair value, notional value or full exposure value. In the case of a credit default swap, in applying certain of the Fund's investment policies and restrictions, the Fund will value the credit default swap at its notional value or its full exposure value (i.e., the sum of the notional amount for the contract plus the fair value), but may value the credit default swap at fair value for purposes of applying certain of the Fund's other investment policies and restrictions. For example, a Fund may value credit default swaps at full exposure value for purposes of the Fund's credit quality guidelines (if any) because such value reflects the Fund's actual economic exposure during the term of the credit default swap agreement. In this context, both the notional amount and the fair value may be positive or negative depending on whether the Fund is selling or buying protection through the credit default swap. The manner in which certain securities or other instruments are valued by the Fund for purposes of applying investment policies and restrictions may differ from the manner in which those investments are valued by other types of investors.

Entering into these agreements involves, to varying degrees, elements of interest, credit, market and documentation risk in excess of the amounts recognised on the Statement of Assets and Liabilities. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreements may default on its obligation to perform or disagree as to the meaning of contractual terms in the agreements and that there may be unfavourable changes in interest rates.

A Fund's maximum risk of loss from counterparty credit risk is the discounted net value of the cash flows to be received from the counterparty over the contract's remaining life, to the extent that amount is positive. The risk is mitigated by having a master netting arrangement between a Fund and the counterparty and by the posting of collateral to a Fund to cover a Fund's exposure to the counterparty.

Correlation Swap Agreements Certain Funds may enter into correlation swap agreements to gain or mitigate exposure to the underlying reference assets. Correlation swap agreements involve two parties agreeing to exchange cash flows based on the measured correlation of specified underlying assets. One party agrees to exchange a "fixed rate" or strike rate payment for the "floating rate" or realised price correlation on the underlying asset with respect to the notional amount. At inception, the strike rate is generally chosen such that the fair value of the swap is zero. At the maturity date, a net cash flow is exchanged, where the payoff amount is equivalent to the difference between the realised price correlation of the underlying asset and the strike rate multiplied by the notional amount. As a receiver of the fixed strike rate price correlation, the Fund would receive the payoff amount when the realised price correlation of the underlying asset is less than the strike rate and would owe the payoff amount when the correlation is greater than the strike. As a payer of the fixed strike rate price correlation, the Fund would owe the payoff amount when the realised price correlation of the underlying asset is less than the strike rate and would receive the payoff amount when the correlation is greater than the strike. This type of agreement is essentially a forward contract on the future realised price correlation of the underlying asset.

**Credit Default Swap Agreements** Certain Funds may use credit default swaps on corporate, loan, sovereign, U.S. municipal or U.S. Treasury issues

to provide a measure of protection against defaults of the issuers (i.e., to reduce risk where a Fund owns or has exposure to the referenced obligation) or to take an active long or short position with respect to the likelihood of a particular issuer's default. Credit default swap agreements involve one party making a stream of payments (referred to as the "buyer of protection") to another party (the "seller of protection") in exchange for the right to receive a specified return in the event that the referenced entity, obligation or index, as specified in the swap agreement, undergoes a certain credit event. As a seller of protection on credit default swap agreements, the Fund will generally receive from the buyer of protection a fixed rate of income throughout the term of the swap provided that there is no credit event. As the seller, a Fund would effectively add leverage to its portfolio because, in addition to its total net assets, the Fund would be subject to investment exposure on the notional amount of the swap.

If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation, other deliverable obligations or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash or securities equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index. If the Fund is a buyer of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) receive from the seller of protection an amount equal to the notional amount of the swap and deliver the referenced obligation, other deliverable obligations or underlying securities comprising the referenced index or (ii) receive a net settlement amount in the form of cash or securities equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index. Recovery values are estimated by market makers considering either industry standard recovery rates or entity specific factors and considerations until a credit event occurs. If a credit event has occurred, the recovery value is determined by a facilitated auction whereby a minimum number of allowable broker bids, together with a specified valuation method, are used to calculate the settlement value. The ability to deliver other obligations may result in a cheapest-to-deliver option (the buyer of protection's right to choose the deliverable obligation with the lowest value following a credit event).

Credit default swap agreements on corporate or sovereign issues involve one party making a stream of payments to another party in exchange for the right to receive a specified return in the event of a default or other credit event. If a credit event occurs and cash settlement is not elected, a variety of other deliverable obligations may be delivered in lieu of the specific referenced obligation. The ability to deliver other obligations may result in a cheapest-to-deliver option (the buyer of protection's right to choose the deliverable obligation with the lowest value following a credit event).

Credit default swap agreements on credit indices involve one party making a stream of payments to another party in exchange for the right to receive a specified return in the event of a write-down, principal shortfall, interest shortfall or default of all or part of the referenced entities comprising the credit index. A credit index is a basket of credit instruments or exposures designed to be representative of some part of the credit market as a whole. These indices are made up of reference credits that are judged by a poll of dealers to be the most liquid entities in the credit default swap market based on the sector of the index. Components of the indices may include, but are not limited to, investment grade securities, high yield securities, assetbacked securities, emerging markets, and/or various credit ratings within each sector. Credit indices are traded using credit default swaps with standardised terms including a fixed spread and standard maturity dates. An index credit default swap references all the names in the index, and if there is a default, the credit event is settled based on that name's weight in the index. The composition of the indices changes periodically, usually every six months, and for most indices, each name has an equal weight in the index. The Fund may use credit default swaps on credit indices to hedge a portfolio of credit default swaps or bonds, which is less expensive than it would be to buy many credit default swaps to achieve a similar effect. Credit default swaps on indices are instruments for protecting investors owning bonds against default, and traders use them to speculate on changes in credit quality.

Implied credit spreads, represented in absolute terms, utilised in determining the fair value of credit default swap agreements on corporate, loan, sovereign, U.S. municipal or U.S. Treasury issues as of year end if any, are disclosed in the Schedule of Investments. They serve as an indicator of the current status of the payment/performance risk and represent the likelihood or risk of default for the referenced entity. The implied credit spread of a particular referenced entity reflects the cost of buying/selling protection and may include upfront payments required to be made to enter into the agreement. Wider credit spreads represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement. For credit default swap agreements on asset-backed securities and credit indices, the quoted market prices and resulting values serve as the indicator of the current status of the payment/performance risk. Increasing fair values, in absolute terms when compared to the notional amount of the swap, represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement.

The maximum potential amount of future payments (undiscounted) that a Fund as a seller/buyer of protection could be required to make under a credit default swap agreement equals the notional amount of the agreement. Notional amounts of each individual credit default swap agreement outstanding as of 31 December 2023 for which the Fund is the seller/buyer of protection are disclosed in the Schedule of Investments. These potential amounts would be partially offset by any recovery values of the respective referenced obligations, upfront payments received upon entering into the agreement, or net amounts received from the settlement of buy protection credit default swap agreements entered into by the Fund for the same referenced entity or entities.

Cross-Currency Swap Agreements Certain Funds may enter into crosscurrency swap agreements to gain or mitigate exposure to currency risk. Cross-currency swap agreements involve two parties exchanging two different currencies with an agreement to reverse the exchange at a later date at specified exchange rates. The exchange of currencies at the inception date of the contract takes place at the current spot rate. The re-exchange at maturity may take place at the same exchange rate, a specified rate, or the then current spot rate. Interest payments, if applicable, are made between the parties based on interest rates available in the two currencies at the inception of the contract. The terms of cross-currency swap contracts may extend for many periods. Cross-currency swaps are usually negotiated with commercial and investment banks. Some cross-currency swaps may not provide for exchanging principal cash flows, but only for exchanging interest cash flows. The exchange of currencies at the inception date will be separately reflected on a gross basis with the notional principal currency amount as a receivable and payable, as appropriate for the fixed or floating leg, on the Statement of Assets and Liabilities.

For Class level hedges the realised and unrealised gains or losses are allocated solely to the relevant share classes. The unrealised gains or losses are reflected in financial derivative instruments on the Statement of Assets and Liabilities. In connection with these contracts, securities may be identified as collateral in accordance with the terms of the respective contracts.

**Interest Rate Swap Agreements** Certain Funds are subject to interest rate risk exposure in the normal course of pursuing their investment objectives. Because a Fund holds fixed rate bonds, the value of these bonds may decrease if interest rates rise. To help hedge against this risk and to maintain its ability to generate income at prevailing market rates, a Fund may enter into interest rate swap agreements. Interest rate swap agreements involve the exchange by the Fund with another party for their respective commitment to pay or receive interest on the notional amount of principal. Certain forms of interest rate swap agreements may include: (i) interest rate caps, under which, in return for a premium, one party agrees to make payments to the other to the extent that interest rates exceed a specified rate, or "cap", (ii) interest rate floors, under which, in return for a premium, one party agrees to make payments to the other to the extent that interest rates fall below a specified rate, or "floor", (iii) interest rate collars, under which a party sells a cap and purchases a floor or vice versa in an attempt to protect itself against interest rate movements exceeding given minimum or maximum levels, (iv) callable interest rate swaps, under which the buyer pays

an upfront fee in consideration for the right to early terminate the swap transaction in whole, at zero cost and at a predetermined date and time prior to the maturity date, (v) spreadlocks, which allow the interest rate swap users to lock in the forward differential (or spread) between the interest rate swap rate and a specified benchmark, or (vi) basis swaps, under which two parties can exchange variable interest rates based on different segments of money markets.

Total Return Swap Agreements Certain Funds may enter into total return swap agreements. Total return swap agreements on commodities involve commitments where cash flows are exchanged based on the price of a commodity in return for either a fixed or floating price or rate. One party would receive payments based on the fair value of the commodity involved and pay a fixed amount. Total return swap agreements on indices involve commitments to pay interest in exchange for a market-linked return. One counterparty pays out the total return of a specific reference asset, which may be an equity, index, or bond, and in return receives a regular stream of payments. To the extent the total return of the security or index underlying the transaction exceeds or falls short of the offsetting interest rate obligation, the Fund will receive a payment from or make a payment to the counterparty.

Certain Funds may invest in total return equity swaps ("equity swaps"). Equity swaps can be used to secure a profit or avoid a loss by reference to fluctuations in the value or price of equities or financial instruments or in an index of such equities or financial instruments. An equity swap is a derivative instrument designed to replicate the economic performance and the cash flows of a conventional share investment.

The risks inherent in equity swaps are dependent on the position that a Fund may take in the transaction: by utilising equity swaps, a Fund may put itself in a long position on the underlying value, in which case the Fund will profit from any increase in the value of the underlying stock, and suffer from any decrease. The risks inherent in a long position are identical to the risks inherent in the purchase of the underlying stock. Conversely, a Fund may put itself in a short position on the value of the underlying stock, in which case the Fund will profit from any decrease in the underlying stock, and suffer from any increase. The risks inherent in a short position are greater than those of a long position: while there is a ceiling to a maximum loss in a long position if the underlying stock is valued at zero, the maximum loss of a short position is that of the increase in the underlying stock, an increase that, in theory, is unlimited.

It should be noted that a long or short equity swap position is based on the Investment Advisors' opinion of the future direction of the underlying security. The position could have a negative impact on the Fund's performance.

Volatility Swap Agreements are also known as forward volatility agreements and volatility swaps, and are agreements in which the counterparties agree to make payments in connection with changes in the volatility (I e., the magnitude of change over a specified period of time) of an underlying referenced instrument, such as a currency, rate, index, security or other financial instrument. Volatility swaps permit the parties to attempt to hedge volatility risk and/or take positions on the projected future volatility of an underlying referenced instrument. For example, the Fund may enter into a volatility swap in order to take the position that the referenced instrument's volatility will increase over a particular period of time. If the referenced instrument's volatility does increase over the specified time, the Fund will receive payment from its counterparty based upon the amount by which the referenced instrument's realised volatility level exceeds a volatility level agreed upon by the parties. If the referenced instrument's volatility does not increase over the specified time, the Fund will make a payment to the counterparty based upon the amount by which the referenced instrument's realised volatility level falls below the volatility level agreed upon by the parties. At the maturity date, a net cash flow is exchanged, where the payoff amount is equivalent to the difference between the realised price volatility of the referenced instrument and the strike multiplied by the notional amount. As a receiver of the realised price volatility, the Fund would receive the payoff amount when the realised price volatility of the referenced instrument is greater than the strike and would owe the payoff amount when the volatility is less than the strike. As a payer of the realised price volatility, the Fund would owe the payoff amount when the realised price volatility of the

referenced instrument is greater than the strike and would receive the payoff amount when the volatility is less than the strike. Payments on a volatility swap will be greater if they are based upon the mathematical square of volatility (i.e., the measured volatility multiplied by itself, which is referred to as "variance"). This type of volatility swap is frequently referred to as a variance swap.

#### 7. EFFICIENT PORTFOLIO MANAGEMENT

To the extent permitted by the investment objectives and policies of the Funds and subject to the limits set down by the Central Bank from time to time and to the provisions of the Prospectus, utilisation of financial derivative instruments and investment techniques may be employed for efficient portfolio management purposes by all the Funds. The Funds may use these financial derivative instruments and investment techniques to hedge against changes in interest rates, non-functional currency exchange rates or securities prices or as part of their overall investment strategy.

The total interest income/(expense) arising from Repurchase Agreements during the financial year ended 31 December 2023 was \$429,491,320/(\$4,038,069) (31 December 2022: \$155,496,772/(\$296,154)).

The total interest income/(expense) arising from Reverse Repurchase Agreements during the financial year ended 31 December 2023 was \$979,244/(\$149,866,376) (31 December 2022: \$9,791,008/(\$45,026,160)).

The total interest income/(expense) arising from Sale-Buyback Transactions during the financial year ended 31 December 2023 was \$1,074/(\$7,634,491) (31 December 2022: \$950/(\$6,496,889)).

#### 8. TAXATION

Under current law and practice the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended, so long as it is resident in Ireland. On that basis, it is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation, transfer or deemed disposal (a deemed disposal will occur at the expiration of a Relevant Period) of shares or the appropriation or cancellation of shares of a shareholder by the Company for the purposes of meeting the amount of tax payable on a gain arising on a transfer.

No Irish tax will arise on the Fund in respect of chargeable events in respect of:

- (a) A shareholder who is neither an Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Fund and provided the Fund is not in possession of any information which would reasonably suggest that the information contained therein is no longer materially correct, or the Fund has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations;
- (b) Certain exempted Irish tax resident shareholders who have provided the Fund with the necessary signed statutory declarations;
- (c) Any transactions in relation to shares held in a recognised clearing system as designated by order of the Revenue Commissioners;
- (d) An exchange of shares representing one sub-fund for another sub-fund of the Fund;
- (e) An exchange of shares arising on a qualifying amalgamation of or reconstruction of the Fund with another fund; and
- (f) Certain exchange of shares between spouses and former spouses.

In the absence of the appropriate declaration, the Fund will be liable to Irish tax on the occurrence of a chargeable event.

The investment undertaking regime provides that the Revenue Commissioners may grant approval for investment funds marketed outside of Ireland to make payments to non-resident shareholders without deduction of Irish tax where no relevant declaration is in place, subject to meeting the "equivalent measures" requirement. A Fund wishing to receive approval must apply in writing to the Revenue Commissioners, confirming compliance with the relevant conditions.

Dividends, interest and capital gains (if any) which the Company receives with respect to its investments (other than securities of Irish issuers) may be subject to taxes, including withholding taxes, in the countries in which the issuers of investments are located. It is anticipated that the Company may not be able to benefit from reduced rates of withholding tax in double taxation agreements between Ireland and such countries. If this position changes in the future and the application of a lower rate results in a repayment to the Company the Net Asset Value will not be re-stated and the benefit will be allocated to the existing shareholders rateably at the time of the repayment.

In accordance with the reporting fund regime introduced by the United Kingdom HM Revenue and Customs, each share class will be viewed as a separate "offshore fund" for UK tax purposes. The reporting regime permits an offshore fund to seek advance approval from HM Revenue and Customs to be treated as a "reporting fund". Once an offshore fund has been granted reporting fund status it will maintain that status for so long as it continues to satisfy the conditions to be a reporting fund without a requirement to apply for further certification by HM Revenue and Customs. Each Share Class in the Company is treated as a reporting fund. This has been approved by HM Revenue and Customs.

The Minimum Tax Directive provides for a European Union wide implementation of the Organisation for Economic Cooperation and Development ("OECD") Inclusive Framework on Base Erosion Profit Shifting ("BEPS") Pillar Two rules. The Pillar Two legislation was enacted in Ireland and is effective for the financial year beginning 01 January 2024. The Company meets the definition of an investment entity under BEPS Pillar Two rules, and the clause within it that seeks to protect the tax neutrality of investment funds. This excludes the Company from quantitative disclosures under BEPS Pillar Two requirement along with Qualified Domestic Minimum Top-up Tax ("QDMTT") requirement.

# 9. DIVIDEND DISTRIBUTION POLICY

As set out in the relevant Fund Supplement, dividend distributions may be declared out of;

- (i) Net investment income which consists of interest and dividends.
- (ii) Realised profits on the disposal of investments less realised and unrealised losses (including fees and expenses). In the event that the realised profits on the disposal of investments less realised and unrealised losses are negative the Funds may still pay dividends out of net investment income and/or capital.
- (iii) Other funds (including capital) as may be lawfully distributed from the relevant Fund or Share Class of the relevant Fund.

Management fees and other fees, or a portion thereof, may be charged to capital and as a result capital may be eroded and income may be achieved by foregoing the potential for future capital growth. This cycle may continue until all capital is depleted. The rationale for charging to capital is to maximise the amount distributable to shareholders.

In the case of the Income II Classes, the Directors may, at their discretion, pay fees out of capital as well as take into account the yield differential between the relevant hedged Share Class and the base Share Class (which constitutes a distribution from capital). The yield differential can be positive or negative and is calculated taking into account the contribution of the Share Class hedging arising from the hedged Classes.

In the case of the M Retail Classes, the PIMCO Asia High Yield Bond Fund, Asia Strategic Interest Bond Fund, Euro Income Bond Fund, Euro Short-Term Fund, Income Fund, Low Duration Income Fund, Mortgage Opportunities Fund and US Short-Term Fund, except for the G Institutional, G Retail, E Class Income Q, E Class Income II Q and Investor Income A Classes (where applicable) of the aforementioned Funds, dividend distributions will be

declared monthly and, depending on the shareholder's election, paid in cash or reinvested in additional shares monthly.

In the case of the Administrative Classes of the Diversified Income Fund, BE Retail, BM Retail, BN Retail, M Retail and N Retail Share classes, dividend distributions will be declared monthly and depending upon the shareholder's election, paid in cash or reinvested in additional shares on a monthly basis.

In the case of the G Institutional, G Retail and Investor Income A Classes, dividend distributions will be declared annually and depending upon the shareholder's election, paid in cash or reinvested in additional shares on an annual basis.

In the case of all other Funds with Income Class Shares, dividends distributions will be declared quarterly and, depending upon the shareholder's election, paid in cash or reinvested in additional shares after declaration.

In the case of the BM Retail Decumulation and M Retail Decumulation Classes, the Directors may, at their discretion, pay distributions and fees out of capital. Management Fees and any other fees, or a portion thereof, may be charged to capital of the BM Retail Decumulation and M Retail Decumulation Classes and that as a result capital may be eroded and income may be achieved by foregoing the potential for future capital growth.

Dividend distributions to holders of redeemable shares are classified as finance costs on the Statement of Operations. The income or gains allocated to Accumulation Shares will neither be declared or distributed but the NAV per share of Accumulation Shares will be increased to take account of such income or gains. Dividend distributions not reinvested in shares will be paid to the shareholder by way of bank transfer. Any dividend distribution unclaimed after a period of six years from the date of declaration of such dividend distribution shall be forfeited and shall revert to the account of the relevant Fund. Shareholders can elect to reinvest dividend distributions in additional shares or have the dividend distributions paid in cash by ticking the appropriate box on the Application Form. A portion of dividend distributions per the Statement of Operations was paid out of capital for the below Funds (amounts in thousands);

#### **10. SOFT COMMISSIONS**

The Company or its Investment Advisor may effect transactions on behalf of the Funds with or through the agency of execution brokers, which may, in addition to routine order execution, from time to time, provide to or procure for the Company or its delegates' goods, services or other benefits such as research and advisory services. The Company or its Investment Advisor may pay these brokers full-service brokerage rates part of which may be applied in the provision of permitted goods or services. Those Investment Advisors which are Markets in Financial Instruments Directive ("MiFID") investment firms or subject to equivalent regulatory provisions shall pay for any third party research which it purchases relating to the management of the assets of each Fund directly out of its own resources.

#### 11. SEGREGATED LIABILITY

The Company is an umbrella type open-ended investment Company with variable capital and segregated liability between sub-funds. Accordingly, any liability on behalf of or attributable to any Fund of the Company shall be discharged solely out of the assets of that Fund, and neither the Company nor any Director, receiver, examiner, liquidator, provisional liquidator or other person shall apply, nor be obliged to apply, the assets of any such Fund in satisfaction of any liability incurred on behalf of or attributable to any other Fund of the Company, irrespective of when such liability was incurred.

# 12. CHANGES TO THE PROSPECTUS, TO THE SUPPLEMENT AND TO THE MEMORANDUM AND ARTICLES OF **ASSOCIATION**

On 03 January 2023, the Supplements for the Income Fund II and the Low Duration Income Fund were updated to amend the Management Fee waivers. On the same date, the Supplements for PIMCO Balanced Income and Growth Fund, PIMCO Capital Securities Fund, Dynamic Multi Asset Fund, Euro Bond Fund, Euro Credit Fund, Euro Income Bond Fund, Euro Long Average Duration Fund, UK Corporate Bond Fund, UK Long Term Corporate Bond Fund were updated to change the Dealing Days.

On 18 January 2023, the Supplements for the Euro Short-Term Fund and the PIMCO European Short-Term Opportunities Fund were updated to amend the Management Fee waivers.

On 19 April 2023, the Supplements for the PIMCO TRENDS Managed Futures Strategy Fund, the Inflation Multi-Asset Fund and the PIMCO Balanced Income and Growth Fund were updated to amend the investment policy to provide that the Funds may invest up to 20% of its net assets in structured notes as further described in the Supplements. The structured notes will not materially alter the investment policy and shall be used to gain exposure to sectors already contemplated within the investment policy.

On 16 May 2023, the Supplement for the StocksPLUS™ Fund was updated to remove the investment guideline that states the Fund is to hold a minimum of 50% in fixed income securities with same day settlement. On the same date, the Supplement for the PIMCO TRENDS Managed Futures Strategy Fund was updated to clarify that not all energy sectors form part of the Fund's commodity exposure universe.

On 02 June 2023, the Supplement for the PIMCO Climate Bond Fund was updated to amend the Management Fee waivers.

On 30 June 2023, the Supplement for the Euro Credit Fund was updated to amend the Management Fee waivers.

On 01 September 2023, the Supplement for the Euro Short-Term Fund was updated to amend the benchmark being used by the Fund.

On 11 September 2023, the Supplements for Diversified Income ESG Fund, Emerging Local Bond ESG Fund, Emerging Markets Bond ESG Fund, PIMCO ESG Income Fund, Global Bond ESG Fund, Global Investment Grade Credit ESG Fund and Low Duration Opportunities ESG Fund were updated to change the investment policy. The investment policy has been updated to provide that the Funds may invest in index derivatives, such as credit default swaps, which may provide indirect exposure to excluded issuers, updated to modify the Funds' exclusion strategy in line with PIMCO Global Advisors (Ireland) Limited (PGAIL) Sustainability Exclusions Policy which has been made available on PGAIL's website and updated to further clarify existing disclosure relating to issuer engagement.

On the 29 September 2023, the Supplements for Euro Bond Fund, Euro Credit Fund, Euro Income Bond Fund, PIMCO Capital Securities Fund, Dynamic Multi-Asset Fund, Euro Short-Term Fund, Global Real Return Fund, Global Low Duration Real Return Fund were updated to provide for the promotion of social characteristics by expanding the Fund's exclusion list to add the military weapons sector and the tobacco industry; and further clarify existing disclosure relating to issuer engagement.

On the same date, the Supplement for PIMCO European High Yield Bond Fund was updated to explicitly reference that the Fund will promote environmental and social characteristics by implementing binding ESG criteria to the selection of underlying assets which sit alongside the Funds' current investment strategies. The Fund's Supplement was updated to include a pre-contractual Annex as required under Sustainable Finance Disclosure Regulation.

On the 29 November 2023, the Supplement for the PIMCO Global Core Asset Allocation Fund was updated to rename the Fund to the "PIMCO Balanced Income and Growth Fund" following regulatory approval. In addition to the name change and as notified to shareholders, the Supplement was updated to reflect certain non-material amendments to the investment policy.

On the same date, the Supplements for the Diversified Income Fund, Emerging Markets Bond Fund and Global Investment Grade Credit Fund were updated to create a new share class type, namely the "Decumulation" share class. The "Decumulation" share classes include the M Retail Decumulation Class and the BM Retail Decumulation Class. In addition, the BM Retail Class was also added to the Global Investment Grade Credit Fund Supplement.

The Memorandum and Articles of Association of the Company were amended on the 13 September 2023 to provide the flexibility under the Articles to establish (i) ETF Participating Share Classes; being a Participating Share that is traded throughout the day on at least one regulated market or multilateral trading facility and (ii) Non-ETF Participating Share Classes; being a Participating Share that is not traded throughout the day.

# 13. FEES AND EXPENSES

#### (a) Fees Payable to the Manager

Save for the BN Retail Shares, BM Retail Shares and BE Retail Shares as disclosed in the relevant Fund Supplement, the Unified Fee shall not exceed 2.50% per annum of the NAV of each Fund.

#### (b) Management Fee

The Manager, in respect of each Fund and as described in the Prospectus, provides or procures investment advisory, administration, depositary and other services in return for which each Fund pays a single Management Fee to the Manager. The Management Fee (as defined in the Prospectus) for each Fund is accrued on each Dealing Day (as defined in the relevant Fund's Supplement) and is payable monthly in arrears. The Manager may pay the Management Fee in full or in part to the Investment Advisors in order to pay for the investment advisory and other services provided by the Investment Advisors and in order for the Investment Advisors to pay for administration, depositary and other services procured for the Funds by the Manager.

The Management Fee for each class of each Fund (expressed as a per annum percentage of its NAV) is as follows:

	Inst'l, G Inst'l, Inv, Admin Classes (%)	H Inst'l (%)	BE Retail BM Retail BN Retail E Class, G Retail, M Retail, N Retail, T Class (%)	R Class (%)	W Class (%)

- (1) The figure above for the M Retail Class rate does not take account a fee waiver by the Manager at a rate of 0.55%, reducing the M Retail Class management fee to 1.60% until the 28 November 2028. The figure above for the BM Retail Class rate does not take account a fee waiver by the Manager at a rate of 0.55% reducing the BM Retail Class management fee to 2.60% until the 28 November 2028. The fee waivers will expire from 29 November 2028.
- This figure takes account a fee waiver by the Manager at a rate of 0.05% in respect of the Investor Class from 31 May 2021 to 31 May 2023. The fee waiver expired on 01 June 2023.
- For all Classes the figure takes account of a fee waiver by the Manager at the rate of 0.15% p.a (The fee waiver was 0.30% p.a prior to 01 June 2023). The fee waiver will expire from 01 June 2024 and may extend until such time as the Manager, on prior written notice to shareholders in the Fund, decides to discontinue or disapply this fee or to reduce it for any future period.
- The H Institutional Class rate takes into account a fee waiver by the Manager at the rate of 0.25% p.a. from 30 June 2023. The fee waiver will expire on 01 July 2024.
- The Institutional Class and the E Class rates take into account a fee waiver by the Manager at a rate of 0.11% p.a. from 31 May 2021. The fee waiver will expire from 19 January 2025.
- The Institutional and H Institutional Class rates take into account a fee waiver by the Manager of 0.14% p.a. The E Class rate takes account of a fee waiver by the Manager at the rate of 0.54% p.a. The fee waiver will expire from 18 January 2025.
- The E Class, G Retail and M Retail rates takes into account a fee waiver by the Manager at the rate of 0.30% p.a. The fee waivers will extend until such time as the Manager, on prior written notice to shareholders in the Fund, decides to discontinue or disapply this fee or to reduce it for any future period.

The Management Fees for all Funds were unchanged from 31 December 2022 with the exception of fee waiver amendments noted above.

The Management Fee attributable to the H Institutional, BE Retail, BM Retail, BN Retail, E Class, G Retail, M Retail, N Retail and T Class share classes is generally higher than the Management Fee attributable to the other share classes. From this higher fee the Manager may pay for the expense of distribution, intermediary and other services rendered to shareholders in these share classes of the Funds directly or indirectly by distributors or broker-dealer, banks, financial intermediaries, or other intermediaries. Given the fixed nature of the Management Fee, the Manager, and not shareholders, takes the risk of any price increases in the cost of the services covered by the Management Fee and takes the risk of expense levels relating to such services increasing above the Management Fee as a result of a decrease in net assets. Conversely, the Manager, and not shareholders, would benefit from any price decrease in the cost of services covered by the Management Fee, including decreased expense levels, as a percentage of net assets, resulting from an increase in net assets.

Due to the nature of the Z Class offering there is no Management Fee disclosed on the Statement of Operations (the Z Class is offered primarily for other Funds of the Company or for direct investment by institutional investors who have entered into an investment management or other agreement with the Investment Advisors or a PIMCO affiliate) and in an effort to avoid the duplication of fees, the Management Fee for the Z Class will be set at 0.00% per annum.

# (c) Investment Advisory Services

On behalf of the Company, the Manager provides and/or procures investment advisory services. Such services include the investment and reinvestment of the assets of each Fund. The fees of the Investment Advisors (together with VAT, if any thereon) are paid by the Manager from the Management Fee.

# (d) Administration, Depositary Services and Other Services

On behalf of the Company, the Manager provides and/or procures administration, depositary and other services. Such services include administration, transfer agency, fund accounting, depositary and subdepositary in respect of each Fund. The fees and expenses of the Administrator and Depositary (together with VAT, if any thereon) are paid by the Manager from the Management Fee, or by the Investment Advisors.

On behalf of the Company, the Manager provides and/or procures certain other services. These may include listing broker services, paying agent and other local representative services, accounting, audit, legal and other professional advisor services, company secretarial services, printing, publishing and translation services, and the provision and co-ordination of certain supervisorial, administrative and shareholder services necessary for operation of the Funds. Fees and any ordinary expenses in relation to these services (together with VAT, if any thereon) are paid by the Manager, or by the Investment Advisors on behalf of the Manager, from the Management Fee.

The Funds will bear other expenses related to their operation that are not covered by the Management Fee which may vary and affect the total level of expenses within the Funds including, but not limited to, taxes and governmental fees, brokerage fees, commissions and other transaction expenses (including, but not limited to, fees and expenses related to due diligence on investments and potential investments and/or related to negotiations of such transactions), costs of borrowing money including interest expenses, establishment costs, extraordinary expenses (such as litigation and indemnification expenses) and fees and expenses of the Company's Independent Directors and their counsel.

The Company paid the Independent Directors fees of €180,000 during the financial year ended 31 December 2023 (31 December 2022: €180,000). In addition, each Independent Director is reimbursed for any reasonable out-ofpocket expenses. Non-Independent Directors are not entitled to separate remuneration for their directorship of the Company. Directors' fees are a component of "Other expenses" on the Statement of Operations.

The following table sets out the fees the Company was charged by the statutory auditors during the financial years ended 31 December 2023 and 31 December 2022. The fees in the table below are exclusive of VAT.

31-Dec-2023	31-Dec-2022
€ 661,598	€ 636,152

Service Fee The Service Fee which applies to the Investor Classes only is paid to the Manager and may be used to reimburse broker-dealer, financial intermediaries, or other intermediaries that provide services in connection with the distribution and marketing of shares and/or the provision of certain shareholder services or the administration of plans or programmes that use Fund shares as their funding medium, and to reimburse other related expenses (as defined in the relevant Fund's Supplement). The services are provided directly by the Manager or indirectly through broker-dealer, financial intermediaries, or other intermediaries to all shareholders of the Investor Classes. The same services apply to all shareholders of the Investor

Classes for the fees levied. These services may include responding to shareholder inquiries about the Funds and their performance; assisting shareholders with purchases, redemptions and exchanges of shares; maintaining individualised account information and providing account statements for shareholders; and maintaining other records relevant to a shareholder's investment in the Funds.

Plans or programmes that use Fund shares as their funding medium may include unit-linked insurance products and pension, retirement or savings plans maintained by employers. All shareholders in the Investor Classes will receive services pursuant to agreements entered into with financial intermediaries with whom those shareholders have a servicing relationship. The Service Fee is calculated on the basis of 0.35% per annum of the NAV of each Fund attributable to the Investor Classes. The Service Fees rate was unchanged during the financial years ended 31 December 2023 and 31 December 2022. The Service Fee is paid out of the NAV attributable to the Investor Classes of the NAV of those Funds. The Service Fee for each Fund is accrued on each Dealing Day and is payable monthly in arrears. The Manager may retain for its own benefit in whole or in part any Service Fee not payable to broker-dealer, financial intermediaries or other intermediaries.

**Trail Fee** The Trail Fee which applies to Administrative Classes is paid to the Distributor for personal services rendered to shareholders of the Funds and the maintenance of shareholder accounts, including compensation to, and expenses (including telephone and overhead expenses) of, financial consultants or other employees of participating or introducing brokers, certain banks and other financial intermediaries who assist in the processing of purchase or redemption requests or the processing of dividend payments, who provide information periodically to shareholders showing their positions in a Fund's shares, who forward communications from the Company to shareholders, who render ongoing advice concerning the suitability of particular investment opportunities offered by the Funds in light of the shareholders' needs, who respond to inquiries from shareholders relating to such services, or who train personnel in the provision of such services.

The services are provided directly by the Distributor or indirectly through broker-dealer, banks, financial intermediaries, or other intermediaries to all shareholders of Administrative Classes. The Trail Fee is calculated on the basis of 0.50% per annum of the NAV of each Fund, with the exception of the StocksPLUS™ Fund where calculated on the basis of 0.75% per annum, attributable to the Administrative Classes. The Trail Fee for each Fund is accrued on each Dealing Day and is payable monthly in arrears. The Distributor may retain for its own benefit in whole or in part any Trail Fee not payable to broker-dealer, banks, financial intermediaries or other intermediaries.

The Trail Fees rate was unchanged during the financial years ended 31 December 2023 and 31 December 2022.

#### (e) Distribution Fee

The Distribution Fee which applies to T Class Shares, BN Retail Shares, BM Retail Shares and BE Retail Shares is paid to the Distributor for services rendered to shareholders of the Funds.

The services are provided directly by the Distributor or indirectly through broker-dealer, banks, financial intermediaries, or other intermediaries to all shareholders of T Class shares. The Distribution Fee is calculated on the basis of 0.40% per annum of the NAV of each Fund attributable to the T Class share, with the exception to the PIMCO Asia High Yield Bond Fund, PIMCO Credit Opportunities Bond Fund, Dynamic Bond Fund, Euro Bond Fund, Global Bond Fund, Global Bond Ex-US Fund, Global Low Duration Real Return Fund, Global Real Return Fund, Low Duration Opportunities Fund, PIMCO MLP & Energy Infrastructure Fund and Total Return Bond Fund which attract a Distribution Fee of 0.30% per annum of the NAV of the Fund attributable to the T Class share.

In respect of the BE Retail, BM Retail and BN Retail share classes only, where disclosed in the relevant Supplement, the Distribution Fee may be up to 1% of the NAV and therefore the Unified Fee may exceed 2.50% of the NAV.

The Distributor Fee for each Fund is accrued on each Dealing Day and is payable monthly in arrears. The Distributor may retain for its own benefit in

whole or in part any Distribution Fee not payable to broker-dealer, banks, financial intermediaries or other intermediaries.

# (f) Expense Limitation (including Management Fee Waiver and Recoupment)

The Manager has agreed with the Company, pursuant to the Management Agreement between the Company and the Manager dated as of 28 January 1998, as amended, to manage total annual fund operating expenses for any Class of Fund, by waiving, reducing or reimbursing all or any portion of its Management Fee, to the extent that (and for such period of time that) such operating expenses would exceed, due to the payment of establishment costs and pro rata Directors' Fees, the sum of such Class of such Fund's Management Fee (prior to the application of any applicable Management Fee waiver), any Service or Trail Fees, as applicable, and other expenses borne by such Fund's share Class not covered by the Management Fee as described above (other than establishment costs and pro rata Directors' fees), plus 0.0049% per annum (calculated on a daily basis based on the NAV of the Fund).

In any month in which the Management Agreement is in effect, the Manager may recoup from a Fund any portion of the Management Fee waived, reduced or reimbursed pursuant to the Management Agreement (the "Reimbursement Amount") during the previous 36 months, provided that such amount paid to the Manager will not 1) exceed 0.0049% per annum of the Class of the applicable Fund's average net assets (calculated on a daily basis); 2) exceed the total Reimbursement Amount; 3) include any amounts previously reimbursed to the Manager; or 4) cause any Class of a Fund to maintain a net negative yield.

The Management Fee as disclosed in the Statement of Operations is recognised gross of the relevant management fee waiver where applicable. Management fee waivers are recognised within Reimbursement by Investment Advisors in the Statement of Operations. The Management Fee is paid to the Manager net of the waiver.

# 14. RELATED PARTY TRANSACTIONS

The Manager, Investment Advisors, Distributors and Directors are related parties of the Company. Fees payable to these parties are disclosed in Note 13, where applicable.

At 31 December 2023, the Manager held 1,193,662 (31 December 2022: 1,786,291) shares of the US Short-Term Fund.

Each of the Funds may invest in the other Funds of the Company and/or other collective investment schemes managed by the Manager or entities affiliated with the Manager ("Affiliated Fund").

The following Funds held cross umbrella investments for the financial year ended 31 December 2023 and 31 December 2022. These investments have been eliminated for the presentation purposes of the Company total of the Funds.

Certain Funds invest in the Z Class of the PIMCO China Bond Fund, a Fund of PIMCO Specialty Funds Ireland p.l.c. and PIMCO US Dollar Short-Term Floating NAV Fund, a Fund of PIMCO Select Funds plc, which are considered as Affiliated Funds. Due to the nature of the Z Class offering and in an effort to avoid the duplication of fees, the Management Fee for the Z Class of both funds is set at 0.00% per annum.

Certain Funds invest into the PIMCO Euro Short-Term High Yield Corporate Bond Index UCITS ETF, PIMCO Euro Short Maturity UCITS ETF, PIMCO Sterling Short Maturity UCITS ETF and PIMCO US Dollar Short Maturity UCITS ETF, all Funds of PIMCO ETFs plc, which are considered as Affiliated Funds. Since these Funds do not offer a zero fee share class, Management Fees are paid by both the Fund investing and the underlying Affiliated Fund. Therefore, an Investment Advisory Fee Waiver is offset prior to payment by the investing Fund to the Manager, which is accounted for on the Statement of Operations within Reimbursement by Investment Advisors.

During the financial years ended 31 December 2023 and 31 December 2022, the Funds below engaged in purchases and sales of securities among Affiliated Funds, purchases and sales relating to cross-investments and purchases and sales of investments into Affiliated Funds (amounts in thousands):

Funds where shareholders, excluding the Allianz Group, Funds of the Company, Funds affiliated with the Company and employees of the Investment Advisors, own more than 20% of the Net Assets of the Fund, are separately disclosed in Note 16.

During the financial year ended 31 December 2023, the Income Fund sold securities of US\$119,273 (31 December 2022: US\$136,931) to Repack Bond Collateral Ltd. (the "Entity"), an exempted company incorporated with limited liability under the laws of the Cayman Islands, which is a related party of the Investment Advisors. There are no fees paid to the Investment Advisors by the Entity. At 31 December 2023, the Income Fund held 9,694 Notes (31 December 2022: 9,694 Notes) of BNP Paribas Issuance BV., which is secured by notes issued by the Entity. During the financial year, the Entity paid the Income Fund total distributions of US\$73,836 (31 December 2022: US\$43,624).

31-Dec-2023

During the financial year ended 31 December 2023, the PIMCO Trends Managed Futures Strategy Fund invested in two structured notes, Aries Capital DAC and Greenleaves Capital Designated Activity Co., the proceeds of which were used to issue redeemable participating shares of PIMCO Commodities Diversified SP, a segregated portfolio of PIMCO Diversified Strategies SPC. PIMCO Diversified Strategies SPC, an exempted company incorporated with limited liability under the laws of the Cayman Islands, is a related party to the Investment Advisors. There are no fees paid to the Investment Advisors by PIMCO Diversified Strategies SPC. As at 31 December 2023, the value of the structured notes held by the PIMCO Trends Managed Futures Strategy Fund was US\$31,276.

# Directors' and Secretary's Interests in Shares and Contracts

At 31 December 2023, V. Mangala Ananthanarayanan held 8,187.77 (31 December 2022: 8,187.77) shares of the PIMCO Asia High Yield Bond Fund, 5,319.15 (31 December 2022: 5,319.15) shares of the PIMCO Capital Securities Fund, Nil (31 December 2022: 8,757.87) shares of the Dynamic Multi-Asset Fund, 3,619.69 (31 December 2022: 3,619.69) shares of the Global Bond Fund and 27,543.65 (31 December 2022: 27,543.65) shares of the Income Fund, all Funds of the Company.

At 31 December 2023, Ryan P. Blute held Nil (31 December 2022: 5,387.93) shares of the PIMCO Asia High Yield Bond Fund, 28,827.68 (31 December 2022: 24,131.27) shares of the Low Average Duration Fund and 50,751.14 (31 December 2022: 82,494.63) shares of the Low Duration Income Fund, all Funds of the Company.

At 31 December 2023, Craig A. Dawson held 18,118.23 (31 December 2022: 18,118.23) shares of the PIMCO Capital Securities Fund, 97,370.98 (31 December 2022: 97,370.98) shares of the Low Duration Income Fund and 92,850.51 (31 December 2022: 92,850.51) shares of the Low Duration Opportunities Fund, all Funds of the Company.

At 31 December 2023, David M. Kennedy held 16,786.79 (31 December 2022: 16,786.79) shares of the PIMCO Balanced Income and Growth Fund and 4,186.59 (31 December 2022: 4,449.56) shares of the Emerging Markets Bond Fund, both Funds of the Company.

No other Directors held interest in the shares of the Company during the financial years ended 31 December 2023 or 31 December 2022.

The Secretary held no interest in the shares of the Company during the financial years ended 31 December 2023 or 31 December 2022.

The Company had no employees during the financial years ended 31 December 2023 or 31 December 2022.

# 15. EXCHANGE RATES

For the purposes of combining the financial statements of the Funds, to arrive at Company figures (required under Irish Company law), the amounts on the Statement of Assets and Liabilities have been translated at the exchange rate ruling at 31 December 2023 from Euro to U.S. Dollar (USD/EUR 0.90526) (31 December 2022: USD/EUR 0.93699) and from British Pound Sterling to U.S. Dollar (USD/GBP 0.78444) (31 December 2022: USD/GBP 0.83132). The amounts on the Statement of Operations and the Statement of Changes in Net Assets have been translated at an average exchange rate for the financial year ended 31 December 2023 from Euro to U.S. Dollar (USD/EUR 0.92495) (31 December 2022: USD/EUR 0.95111) and from British Pound Sterling to U.S. Dollar (USD/GBP 0.80449) (31 December 2022: USD/GBP 0.81159).

The following table reflects the exchange rates used to convert to British Pound Sterling, Euro and U.S. Dollar, the functional currencies of Funds of the Company, the investments and other assets and liabilities denominated in currencies other than each Fund's functional currency.

The exchange rates for Argentine Peso ("ARS") at 31 December 2023 are inclusive of a 21% discount (31 December 2022: 83%), due to a gap between Argentina's official and unofficial exchange rates.

#### **16. FINANCIAL RISKS**

The main risks arising from the Company's financial instruments are market price, foreign currency, interest rate, liquidity, credit and counterparty risks.

#### (a) Market Price Risk

Market risk arises mainly from uncertainty about future prices of financial instruments held. It represents the potential loss of each Fund might suffer through holding market positions in the face of adverse price movements. The Investment Advisors consider the asset allocation of the portfolio in order to minimise the risk associated with particular countries or industry sectors whilst continuing to follow the Funds' investment objectives.

The Investment Advisors use a number of quantitative techniques to assess the impact of market risks including credit events, changes in interest rates, credit spreads and recovery values on the Funds' investment portfolio.

The Investment Advisors use Value at Risk ("VaR") analysis, a technique widely used by financial institutions to quantify, assess, and report market risk. VaR is a statistical framework that supports the quantification of market risk within a portfolio at a specified confidence interval over a defined holding period. Certain Funds may use the Relative VaR model or Absolute VaR model. Where the Relative VaR model is used, the VaR of a Fund's portfolio will not exceed twice the VaR on a comparable benchmark portfolio or reference portfolio (i.e. a similar portfolio with no derivatives) which will

reflect a Fund's intended investment style. Where the Absolute VaR model is used, the VaR of a Fund's portfolio may not exceed 20% of the Net Asset Value of a Fund and the holding period shall be 20 days and the length of the data history shall not be less than one year. VaR seeks to quantify the expected minimum, maximum and average dollar losses that may result from the interactive behaviour of all material market prices, spreads, volatilities, rates and other risks including foreign exchange, interest rate, emerging market and convexity risk based on the historically observed relationships between these markets.

Although the use of derivatives may give rise to an additional leveraged exposure, any such additional exposure will be covered and will be risk managed using the VaR methodology in accordance with the Central Bank's requirements. The Investment Advisors monitor portfolio risk using market factor exposures on a daily basis. Potential market risk is calculated using the parametric delta-normal or factor model approach. VaR is calculated and reported automatically each day using the closing prices and market information of the most recent business day. Depending on the application of the risk statistics, various confidence levels (such as 99%) and time horizons (weeks or months) might be selected.

Stress tests also are conducted relating to the VaR model for each Fund on a monthly basis. The PIMCO Risk Group oversees the composition of stress tests and makes appropriate adjustments when market conditions or fund compositions make that appropriate. The stress tests estimate potential gains or losses from shocks to financial variables including nominal sovereign rates, nominal swap rates, real rates, credit spreads, equity valuations, commodity values, currency exchange rates, and implied volatilities. In addition to the monthly stress testing, three additional types of stress tests are also conducted, some of which are used daily and some of which are used for analysis interactively. The first are scenario duration tests that measure what happens to the value of the portfolio if unexpected movements in yields occur in the market. These durations are calculated every business day. The second test involves a database of historical crisis scenarios that can be executed to test reactions to these crises. The historical crisis scenarios contain many unexpected changes in market conditions and correlation matrices. The third test involves correlation matrices which can be manipulated manually to reflect conditions that may happen in the future but have not happened so far.

Calculations generally are done by using automated simulation methodologies. However, there are also methodologies to manually check what changes in the correlation matrices would have a big negative impact to the portfolios. These correlations changes can then be analysed and possible real world events that could bring about such changes can be assigned.

Of course, it cannot be ruled out that actual economic results will differ significantly from manual and automated scenarios.

The daily VaR measures are an estimate of the portfolio loss over the next one month period that would not be exceeded 99% of the time, relative to the assumptions of the VaR model.

Not all risks to which the portfolio may be exposed are intended to be captured by VaR and, in particular, the framework does not seek to capture liquidity risk, counterparty credit risk, or extreme credit events such as an issuer default. In practice, the actual trading results will differ from the VaR and may not provide a meaningful indication of profits and losses in stressed market conditions. To determine the reliability of the VaR models, actual outcomes are monitored to test the validity of the assumptions and parameters used in the VaR calculation. Market risk positions are also subject to regular stress tests to ensure that each Fund would withstand an extreme market event.

The following tables set out the minimum, maximum, average and year end VaR of each Fund as at 31 December 2023 and 31 December 2022:

The Central Bank requires that all funds disclose a measure of leverage calculated on a gross notional exposure basis. The gross notional exposure figure is calculated using the sum of the absolute value of notionals of the derivatives (which is deemed to include certain forward settling trades), as is required by the Central Bank and as such does not take into account any netting and hedging arrangements that the Fund has in place at any time. The use of derivatives (whether for hedging or investment purposes) may give rise to a higher gross notional exposure. The Funds' gross notional exposure is expected to increase to the higher levels, for example, at times when the Investment Advisors deem it most appropriate to use derivative instruments to alter the Funds' interest rate, currency or credit exposure.

The following table sets out the average level of gross notional exposure for the Funds for the financial years ended 31 December 2023 and 31 December 2022:

Fund	31-Dec-2023	31-Dec-2022

<sup>(1)</sup> The Funds launched during the financial year ended 31 December 2022.

# (b) Foreign Currency Risk

If the Funds invest directly in foreign currencies or in securities that trade in, and receive revenues in, foreign currencies, or in financial derivatives that provide exposure to foreign currencies, it will be subject to the risk that those currencies will decline in value relative to the functional currency of the Funds, or, in the case of hedging positions, that the Funds' functional currency will decline in value relative to the currency being hedged. Currency rates in foreign countries may fluctuate significantly over short periods of time for a number of reasons, including changes in interest rates, intervention (or the failure to intervene) by U.S. or foreign governments, central banks or supranational entities such as the International Monetary Fund, or by the imposition of currency controls or other political developments in the United States or abroad. As a result, the Funds' investments in foreign currency denominated securities may reduce the returns of the Funds.

The PIMCO Capital Securities Fund, PIMCO Climate Bond Fund, Commodity Real Return Fund, PIMCO Credit Opportunities Bond Fund, Diversified Income Fund, Diversified Income ESG Fund, Emerging Markets Bond Fund, Emerging Markets Bond ESG Fund, Emerging Markets Corporate Bond Fund, PIMCO ESG Income Fund, Euro Short-Term Fund, PIMCO European High Yield Bond Fund, Global High Yield Bond Fund, Global Investment Grade Credit ESG Fund, Global Low Duration Real Return Fund, Global Real Return Fund, Low Average Duration Fund, Low Duration Global Investment Grade Credit Fund, Low Duration Opportunities ESG Fund, PIMCO MLP & Energy Infrastructure Fund, Mortgage Opportunities Fund, StocksPLUS<sup>TM</sup> Fund, Total Return Bond Fund, US High Yield Bond Fund, US Investment Grade Corporate Bond Fund and US Short-Term Fund had no material foreign currency exposure at 31 December 2023 or 31 December 2022. The following tables set out the total exposure to foreign currency risk in currencies where foreign currency exposure is deemed material (i.e. where, all other variables being equal, the impact of a reasonably possible movement in the foreign exchange rate would result in a significant movement in the net assets) (amounts in thousands):

#### (c) Interest Rate Risk

United States Dollar

Interest rate risk is the risk that fixed income securities will decline in value because of changes in interest rates. As nominal interest rates rise, the value of certain fixed income securities held by the Funds are likely to decrease. A nominal interest rate can be described as the sum of a real interest rate and an expected inflation rate. Fixed income securities with longer durations tend to be more sensitive to changes in interest rates, usually making them more volatile than securities with shorter durations. Duration is useful primarily as a measure of the sensitivity of a fixed income's market price to interest rate (i.e. yield) movements.

Total

20,341

Hedging

(1,951)

All Funds invested primarily in fixed income instruments and therefore are exposed to the risks associated with the effects of fluctuations in the

prevailing levels of market interest rates on their financial position and cash flows. These investments are disclosed in the Schedule of Investments. Any excess cash and cash equivalents are invested at short-term market interest rates.

Hedging

£ (21,868)

Total

22,661

The sensitivity of the Company's exposure to interest rate risk is included in the overall VaR calculations disclosed in Note 16 (a).

#### (d) Liquidity Risk

Net

18,390

A Fund's exposure to liquidity risk is primarily affected by the redemption of shares. Participating shareholders may redeem some or all of their outstanding shares in accordance with the Prospectus. Redeemable shares

are redeemed at the shareholders demand and are included on the Statement of Assets and Liabilities. The Fund's assets are primarily comprised of readily realisable securities, which can be readily sold to satisfy shareholder redemptions in accordance with the Prospectus. Liquidity risk exists when particular investments are difficult to purchase or sell. Also, illiquid securities may become harder to value especially in changing markets. A Fund's investments in illiquid securities may reduce returns of a Fund because it may be unable to sell the illiquid securities at an advantageous time or price. Funds with principal investment strategies that involve foreign securities, derivatives, or securities with substantial market and/or credit risk tend to have the greatest exposure to liquidity risk.

Additionally, the market for certain investments may become illiquid under adverse market or economic conditions independent of any specific adverse changes in the conditions of a particular issuer. In such cases, a Fund, due to limitations on investments in illiquid securities and the difficulty in purchasing and selling such securities or instruments, may be unable to achieve its desired level of exposure to a certain sector. To the extent that a Fund's principal investment strategies involve securities of companies with smaller market capitalisations, foreign securities, illiquid sectors of fixed income securities, or securities with substantial market and/or credit risk, the Fund will tend to have the greatest exposure to liquidity risk. Further, fixed income securities with longer durations until maturity face heightened levels of liquidity risk as compared to fixed income securities with shorter durations until maturity.

Finally, liquidity risk also refers to the risk of unusually high redemption requests or other unusual market conditions that may make it difficult for a Fund to fully honour redemption requests within the allowable time period. Meeting such redemption requests could require a Fund to sell securities at reduced prices or under unfavourable conditions, which would reduce the value of the Fund. It may also be the case that other market participants may be attempting to liquidate fixed income holdings at the same time as a Fund, causing increased supply in the market and contributing to liquidity risk and downward pricing pressure.

For all Funds, the Company is entitled to limit the number of shares of any Fund redeemed on any Dealing Day to 10% of the total number of shares of that Fund in issue. In this event, the Company shall reduce pro rata any requests for redemption on that Dealing Day and shall treat the redemption requests as if they were received on each subsequent Dealing Day until all the shares to which the original request related have been redeemed.

The Company's Articles of Association contain special provisions where a redemption request received from a shareholder would result in more than 5% of the Net Asset Value of Shares of any Fund being redeemed by the Company on any Dealing Day. In such a case the Company, at its sole discretion (unless otherwise outlined in the relevant Fund Supplement), may satisfy the redemption request by the transfer in specie (in kind) to the shareholder of assets of the relevant Fund having a value equal to the

redemption price for the shares redeemed as if the redemption proceeds were paid in cash less any redemption charge and other expenses of the transfer provided that such a distribution would not be prejudicial to the interests of the remaining shareholders of that Fund. Where the shareholder requesting such redemption receives notice of the Company's intention to elect to satisfy the redemption request by such a distribution of assets, that shareholder may require the Company, instead of transferring those assets, to arrange for their sale and the payment of the proceeds of sale to that shareholder, the cost of which shall be borne by the relevant shareholder.

To mitigate the effects of dilution, the Directors may, at their discretion, make a swing price adjustment to the NAV per share.

The current known liabilities for the Funds are listed on the Statement of Assets and Liabilities and the majority of those liabilities are payable within three months with the exception of financial derivative instrument liabilities and securities sold short. The earliest contractual maturity dates for financial derivative instrument liabilities are disclosed on the Schedule of Investments.

Financial derivative instruments consist of the fair value of forward foreign currency contracts, futures contracts, option contracts and swap agreements as at the financial year end. Financial derivative instruments are financial assets and liabilities that are held for trading, and are acquired principally for the purpose of selling in the short term. As the instruments are not expected to be held to maturity or termination, the current fair value represents the estimated cash flow that may be required to dispose of the positions. Future cash flows of the Funds and realised liabilities may differ from current liabilities based on changes in market conditions.

The Investment Advisors manage liquidity risk by monitoring the portfolios and considering investments deemed to be illiquid or not readily and easily sold, to ensure there are sufficient liquid assets to cover the outstanding liabilities of the Funds.

Certain Funds may have a concentrated shareholder base where large institutional type shareholders hold a significant portion of the net assets of a Fund. This exposes other shareholders in the Fund to certain risks. These risks include the risk that a large portion of the assets of a Fund may be redeemed on any day which could impact the overall viability of the Fund or could impact the ability of other shareholders, who have not submitted redemption requests on that day, to redeem from the Fund e.g. where it may be necessary to impose a redemption gate. The below Funds are exposed to significant concentration risk as they have shareholders who own more than 20% of the Net Assets of the Fund. Such concentration of shareholders interests could have a material effect on the Fund in the event this shareholder requests the withdrawal of substantial amounts of capital. Shareholding percentage amounts owned by the Allianz Group, Funds of the Company, Affiliated Funds with the Company and employees of the Investment Advisors are not disclosed below as these are separately disclosed in Note 14.

#### (e) Credit and Counterparty Risks

The Funds will be exposed to credit risk to parties with whom they trade and will also bear the risk of settlement default. The Funds trade with counterparties which at the present time have minimum rating of BBB/Baa2. The Funds minimise concentrations of credit risk by undertaking transactions with a large number of customers and counterparties on recognised and reputable exchanges, where applicable. OTC derivative transactions are subject to the risk that a counterparty to the transaction will not fulfil its contractual obligations to the other party, as many of the protections afforded to centrally cleared derivative transactions might not be available for OTC derivative transactions. For financial derivatives instruments traded on exchanges or clearinghouses, the primary credit risk is the creditworthiness of the Fund's clearing broker or the exchange or clearinghouse itself. The Funds could lose money if the issuer or guarantor of a fixed income security, or the counterparty to a financial derivatives instruments contract, repurchase agreement or a loan of portfolio securities, is unable or unwilling to make timely principal and/or interest payments, or to otherwise honour its obligations. Securities and financial derivative instruments are subject to varying degrees of credit risk, which are often reflected in credit ratings.

Similar to credit risk, the Funds may be exposed to counterparty risk, or the risk that a party to a transaction with a Fund will fail to perform or meet an obligation owed to the Fund. PIMCO, as the Investment Advisors, minimise counterparty risks to the Fund through a number of ways. Prior to entering into transactions with a new counterparty, the PIMCO Counterparty Risk Committee conducts an extensive credit review of such counterparty and must approve the use of such counterparty. Furthermore, pursuant to the terms of the underlying contract, to the extent that unpaid amounts owed to a Fund exceed a predetermined threshold, such counterparty shall advance collateral to the Fund in the form of cash or securities equal in value to the unpaid amount owed to a Fund. The Funds may invest such collateral in securities or other instruments and will typically pay interest to the counterparty on the collateral received. If the unpaid amount owed to each Fund subsequently decreases, the Fund would be required to return to the counterparty all or a portion of the collateral previously advanced.

All transactions in listed securities are settled/paid for upon delivery using approved counterparties. The risk of default is considered minimal, as delivery of securities sold is only made once the Funds have received payment. Payment is made on a purchase once the securities have been delivered by the counterparty. The trade will fail if either party fails to meet its obligation.

Master Netting Arrangements Certain Funds may be subject to various netting arrangements ("Master Agreements") with selected counterparties. Master Agreements govern the terms of certain transactions, and reduce the counterparty risk associated with relevant transactions by specifying credit protection mechanisms and providing standardisation that improves legal certainty. Each type of Master Agreement governs certain types of transactions. Different types of transactions may be traded out of different legal entities or affiliates of a particular organisation, resulting in the need for multiple agreements with a single counterparty. As the Master Agreements are specific to unique operations of different asset types, they allow the Funds to close out and net its total exposure to a counterparty in the event of a default with respect to all the transactions governed under a single Master Agreement with a counterparty. For financial reporting purposes, the Statement of Assets and Liabilities generally presents derivative assets and liabilities on a gross basis, which reflects the full risks and exposures prior to netting.

Master Agreements can also help limit counterparty risk by specifying collateral posting arrangements at pre-arranged exposure levels. Under most Master Agreements, collateral is routinely transferred if the total net

exposure to certain transactions (net of existing collateral already in place) governed under the relevant Master Agreement with a counterparty in a given account exceeds a specified threshold, which typically ranges from zero to \$250,000 (or other applicable currency), depending on the counterparty and the type of Master Agreement. At the present time, U.S. Treasury Bills and U.S. dollar cash are generally the preferred forms of collateral, although other forms of highly rated and readily marketable securities are also permitted, depending on the Master Agreement or its collateral annex. Securities and cash pledged as collateral are reflected as assets on the Statement of Assets and Liabilities as either a component of Financial Assets at fair value through profit or loss (Transferable securities) or Deposits with counterparty (cash). Cash collateral received is not typically held in a segregated account and as such is reflected as a liability on the Statement of Assets and Liabilities as Deposits from counterparty. The fair value of any securities received as collateral is not reflected as a component of NAV. The Funds' overall exposure to counterparty risk can change substantially within a short period, as it is affected by each transaction subject to the relevant Master Agreement.

Master Repurchase Agreements and Global Master Repurchase Agreements (individually and collectively "Master Repo Agreements") govern repurchase, reverse repurchase, and sale-buyback transactions between the Funds and select counterparties. Master Repo Agreements maintain provisions for, among other things, initiation, income payments, events of default, and maintenance of collateral. The fair value of transactions under the Master Repo Agreement, collateral pledged or received, and the net exposure by counterparty as of financial year end are disclosed in the Notes to Schedule of Investments.

Master Securities Forward Transaction Agreements ("Master Forward Agreements") govern certain forward settling transactions, such as TBA securities, delayed-delivery or sale-buyback transactions by and between the Funds and select counterparties. The Master Forward Agreements maintain provisions for, among other things, initiation and confirmation, payment and transfer, events of default, termination, and maintenance of collateral. The fair value of forward settling transactions, collateral pledged or received, and the net exposure by counterparty as of financial year end is disclosed in the Notes to Schedule of Investments.

International Swaps and Derivatives Association, Inc. Master Agreements and Credit Support Annexes ("ISDA Master Agreements") govern bilateral OTC derivative transactions entered into by the Funds with select counterparties. ISDA Master Agreements maintain provisions for general obligations, representations, agreements, collateral and events of default or termination. Events of termination include conditions that may entitle counterparties to elect to terminate early and cause settlement of all outstanding transactions under the applicable ISDA Master Agreement. Any election to terminate early could be material to the financial statements. In limited circumstances, the ISDA Master Agreement may contain additional provisions that add counterparty protection beyond coverage of existing daily exposure if the counterparty has a decline in credit quality below a predefined level. These amounts, if any, may (or if required by law, will) be segregated with a third party depositary. The fair value of OTC financial derivative instruments, collateral received or pledged, and net exposure by counterparty as of financial year end are disclosed in the Notes to Schedule of Investments. The Investment Advisors conduct extensive research and analysis to identify and quantify credit risk within the Funds. Credit exposure within the Funds is reviewed frequently by the Investment Advisors to generate returns either through investments made or avoided. Securities are subject to varying degrees of credit risk, which are often reflected in credit ratings. The tables below summarise the credit rating composition for each of the Fund's Net Assets.

Substantially all of the Company's transferable securities as of 31 December 2023 and 31 December 2022 are held on a fiduciary basis by State Street Custodial Services (Ireland) Limited (the "Depositary"). These assets are held in segregated accounts of each Fund (in accordance with Central Bank UCITS Regulations), reducing the credit risk of holding the assets in safekeeping. The Company will however be exposed to the credit risk of a credit institution holding its deposits.

The long term credit rating of State Street Corporation, the Depositary's ultimate parent, as of 31 December 2023 was AA- (31 December 2022: AA-) as issued by Fitch rating agency.

# 17. TRANSACTIONS WITH CONNECTED PERSONS FOR THE **FUNDS DISTRIBUTED IN HONG KONG**

Connected Persons of the Manager, the Investment Advisors and/or Sub-Investment Advisors, the Depositary and the Directors of the Company are those as defined in the Code on Unit Trusts and Mutual Funds issued by the Securities and Futures Commission of Hong Kong (the "SFC Code"). All transactions entered into during the financial year between the Funds authorised by the SFC ("SFC-authorised Funds"), as outlined in the general characteristics section of the annual report, and the Manager, the Investment Advisors and/or Sub-Investment Advisors, the Depositary and the Directors of the Company and their respective Connected Persons were carried out in the ordinary course of business and on normal commercial terms.

Transactions executed through a broker who is a Connected Person of the Manager, the Investment Advisors and/or Sub-Investment Advisors, the Depositary and the Directors of the Company were as follows for the financial years ended 31 December 2023 and 31 December 2022:

	31-Dec-2023		31-Dec-2	.022
_Fund	Total Purchases and Sales ('000)	% of Total Purchases and Sales	Total Purchases and Sales ('000)	% of Total Purchases and Sales

Income Fund II	11,085	0.77	644	0.07
Low Average Duration Fund	8,790,073	18.73	2,519,168	3.60
Total Return Bond Fund	2,507,856	2.35	9,037,904	5.40
US High Yield Bond Fund	1,581,144	14.46	5,136,959	14.37

There was no commission charged on the transactions in the above table for the financial years ended 31 December 2023 and 31 December 2022.

Details of shares held in SFC-authorised Funds by Directors of the Company for the financial years ended 31 December 2023 and 31 December 2022 are disclosed in Note 14. Details of fees paid to Directors of the Company for the financial years ended 31 December 2023 and 31 December 2022 are disclosed in Note 13.

Details of the value of the outstanding shares owned by Connected Persons of the Manager, the Investment Advisors and/or Sub-Investment Advisors over 20% of Net Assets of SFC-authorised Funds as at 31 December 2023 and 31 December 2022 are disclosed in Note 14. Details of fees paid to the Manager, the Investment Advisors and/or Sub-Investment Advisors are disclosed in Note 13 and in the Statement of Operations.

Directors and Officers of the Depositary did not hold shares in any of the SFC-authorised Funds for the financial years ended 31 December 2023 and 31 December 2022. As disclosed in Note 13, the fees and expenses of the Depositary are paid by the Manager from the Management Fee, or by the

Investment Advisors. As disclosed in Note 4, all cash at bank balances of the SFC-authorised Funds are held either by State Street Bank and Trust Co., as agent for the Depositary, or directly with a sub-depositary. Interest may be earned or charged to the SFC-authorised Funds by the Depositary on these cash balances.

# 18. SHARE CAPITAL

# (a) Authorised Shares

The authorised share capital of the Company is €38,092 divided into 30,000 subscriber shares at €1.27 each and 500,000,000,000 participating shares at no par value initially designated as unclassified shares.

# (b) Subscriber Shares

All but seven of the original 30,000 subscriber shares have been redeemed. The subscriber shares do not form part of the NAV of the Company and are thus disclosed in the financial statements by way of this note only. In the opinion of the Board, this disclosure reflects the nature of the Company's business as an investment fund.

# (c) Redeemable Participating Shares

The issued participating shares capital is at all times equal to the NAV of the Funds. Redeemable participating shares are redeemable at the shareholders' option and are classified as financial liabilities. The movement in the number of participating shares for the financial years ending 31 December 2023 and 31 December 2022 are as follows (amounts are in thousands):

## **19. NET ASSET VALUES**

Each Fund's net assets attributable to redeemable participating shareholders, shares issued and outstanding and NAV per share for the last three financial years are as follows (amounts are in thousands, except per share amounts). The NAV per share disclosed in these financial statements may include adjustments required by FRS 102, which may cause shareholders' NAVs or total returns to differ from those disclosed in these financial statements. Net Assets divided by shares issued and outstanding may not equal the NAV per share due to rounding:

### 20. REGULATORY AND LITIGATION MATTERS

The Company is not named as a defendant in any material litigation or arbitration proceedings and is not aware of any material litigation or claim pending or threatened against it.

The foregoing speaks only as of 31 December 2023.

### 21. CREDIT FACILITY

PIMCO Funds: Global Investors Series plc acting on behalf of each of the PIMCO Asia High Yield Bond Fund, the Global High Yield Bond Fund and the US High Yield Bond Fund (collectively the "Funds" and each a "Fund") entered into a fourth amended and restated credit facility dated as of 18 August 2023 (the "Credit Agreement") between, amongst others, the Funds, certain lenders including MUFG Bank Ltd. ("MUFG") (as lenders) and MUFG in its capacity as agent and lead arranger.

Each Fund is permitted to utilise the facility for temporary purposes in accordance with the relevant Fund's investment policies.

The aggregate commitment available for utilisation by the Funds is, subject to the terms of the Credit Agreement, \$240,000,000. The sub-limits for each Fund are: Global High Yield Bond Fund-\$95,000,000; US High Yield Bond Fund-\$60,000,000 and PIMCO Asia High Yield Bond Fund-\$85,000,000. The total amount available to the Funds, together with the other borrowers (collectively, the "Borrowers") is, subject to the terms of the Credit Agreement, \$268,000,000 (the "Aggregate Commitment Amount"). The Borrowers may, subject to the terms of the Credit Agreement, request an increase of up to \$332,000,000 the Aggregate Commitment Amount (up to a maximum increased commitment of \$600,000,000). This increased commitment would be available for utilisation by the Borrowers in accordance with the terms of the Credit Agreement.

There are two rates of interest available under the Credit Agreement. Each Fund, when utilising a loan will elect which interest rate will apply to all or a portion of the relevant loan with the applicable interest rate being determined by reference to (i) the Alternate Base Rate or (ii) the Adjusted Daily Simple SOFR.

The Alternate Base Rate is for any day, the greater of (i) Federal Funds Rate (as defined in the Credit Agreement) or (ii) the Overnight Bank Funding Rate (as defined in the Credit Agreement), as in effect on such date. Each loan bearing interest calculated by reference to the Alternate Base Rate shall bear interest on the outstanding principal amount thereof for the period commencing on the date when such loan is made up to but not including the date such loan is repaid in full, at a rate per annum equal to the Alternative Base Rate plus the Applicable Margin (being 1.125%).

The Adjusted Daily Simple SOFR means an interest rate per annum equal to (a) Daily Simple SOFR (as defined in the Credit Agreement) plus (b) 0.10%. Each loan bearing interest calculated by reference to the Adjusted Daily Simple SOFR shall bear interest on the outstanding principal amount thereof, for the period commencing with the date such loan is made or continued through and including the date such loan is repaid in full, at a rate per annum equal to Adjusted Daily Simple SOFR plus the Applicable Margin (being 1.125%).

Any loan is, subject to the terms of the Credit Agreement, repayable on the earlier of 60 days of drawdown or 16 August 2024 unless repayable sooner in accordance with the terms of the Credit Agreement.

All loans are provided on an unsecured basis and the recourse of the Lenders to a Fund is limited to the assets of such Fund.

As at 31 December 2023 and 31 December 2022, none of the Funds had borrowings under the Credit Agreement.

### 22. SECURITIES FINANCING TRANSACTIONS REGULATION

Securities Financing Transactions Regulation ("SFTR") introduces reporting and disclosure requirements for Securities Financing Transactions ("SFTs") and total return swaps. SFTs are specifically defined as per Article 3(11) of the SFTR as follows:

- a repurchase/reverse repurchase agreement,
- securities or commodities lending/borrowing,
- a buy-sellback or sale-buyback transaction, or
- a margin lending transaction.

### (a) Global Data and Concentration of SFT Counterparties

As at 31 December 2023 the Funds held total return swaps and the following types of SFTs:

- Repurchase Agreements
- Reverse Repurchase Agreements
- Sale-Buyback Transactions

The fair value of assets/(liabilities) across all SFTs and total return swaps as at 31 December 2023, grouped by SFT type(s) and the ten largest counterparties are as follows (if fewer than ten counterparties are used then all counterparties are detailed).

The collateral fair value for Repurchase Agreements includes interest accrued.

Master Forward Agreements cover a combination of buy-sellback transactions, sale-buyback transactions and other financing transactions not included above. The total amount of the collateral received as at 31 December 2023 and 31 December 2022 for all transactions entered into under these Agreements is included above. It is not possible to separately analyse the collateral for each specific SFT.

ISDA Agreements cover a combination of swap contracts and the total amount of the collateral for these agreements is included above.

A portion of the collateral disclosed relates to derivatives not in scope of SFTR.

### (iv) Data on Reuse of Collateral:

Securities received as collateral are not reused as of 31 December 2023 or 31 December 2022.

Collateral received as at 31 December 2023 and 31 December 2022 is held within the custodial network of State Street Bank and Trust.

### (v) Safekeeping of Collateral Granted:

The collateral pledged by the Funds as of 31 December 2023 and 31 December 2022 are held by the counterparties in accounts other than segregated or pooled accounts.

### (c) Returns/Costs

The tables below detail the data on returns and costs for each type of SFT and total return swap for the financial years ended 31 December 2023 and 31 December 2022. Amounts are shown in the base currency of the Funds.

All returns from SFT derivative transactions will accrue to the Fund and are not subject to any returns sharing agreement with the Company's Manager or any other third parties.

For total return swaps transactions costs are not separately identifiable. For these investments, transaction costs are included in the purchase and sale price and are part of the gross investment performance of each Fund. Returns are identified as the realised gains and change in unrealised gains

on the swap contract during the financial year which are included within Net realised gain/(loss) on financial derivative instruments and Net change in unrealised appreciation/(depreciation) on financial derivative instruments within the Statement of Operations.

### 23. SIGNIFICANT EVENTS

Since February 2022, there has been ongoing armed conflict between Russia and Ukraine, resulting in sanctions imposed upon various Russian entities

and persons. Since October 2023 there has been ongoing armed conflict in Israel and Gaza, and beginning in April 2024 Iran and Israel have engaged in military offensives against each other in a rapidly developing situation. The Funds may invest in securities and instruments that are economically tied to these conflict zones. Such investments may have been negatively impacted by sanctions and counter sanctions, if applicable, including declines in value and reductions in liquidity. The reductions in liquidity in investments may cause the Funds to sell portfolio holdings at a disadvantageous time or price or to continue to hold investments that the Funds may no longer seek to hold. PIMCO will continue to actively manage these positions in the best interests of the Funds and its shareholders.

On 01 January 2023, the Management Fee waiver for the Income Fund II expired. On the same date, the Management Fee waiver for Low Duration Income Fund expired and the management fee was permanently lowered.

On 03 January 2023, the Management Fee waivers for the Low Duration Income Fund and the Income Fund II were amended.

On 18 January 2023, the Management Fee waivers for the Euro Short-Term Fund and the PIMCO European Short-Term Opportunities Fund were amended.

On 26 January 2023, the Company Secretary was changed from State Street Fund Services (Ireland) Limited to Walkers Corporate Services (Ireland) Limited.

On 06 April 2023, a subscription of US\$5,000,000 was made into US Short-Term Fund by the Manager.

On 26 April 2023, a redemption of US\$11,580,279 was made by the Manager out of the US Short-Term Fund.

On 01 June 2023, the Management Fee waiver for Investor Accumulation class of the PIMCO Climate Bond Fund expired.

On 30 June 2023, the Supplement for Euro Credit Fund was updated to extend the 25bps Management Fee waiver on the H Institutional share class by one year to 30 June 2024.

On 18 August 2023, the credit facility agreement entered into by PIMCO Funds: Global Investors Series plc acting on behalf of the Global High Yield Bond Fund and the US High Yield Bond Fund with certain lenders including MUFG Bank Ltd. ("MUFG") has been amended and extended to PIMCO Asia High Yield Bond Fund.

On 01 September 2023, the benchmark on the Euro Short-Term Fund was changed to ICE BofA 3-Month German Treasury Bill Index.

On 29 November 2023, the PIMCO Global Core Asset Allocation Fund was renamed to PIMCO Balanced Income and Growth Fund following regulatory approval. In addition to the name change and as notified to shareholders, the Supplement was updated to reflect certain non-material amendments to the investment policy.

Other than the above, there were no other significant events during the financial year.

### 24. SUBSEQUENT EVENTS

On 02 January 2024, the Supplement for the PIMCO Credit Opportunities Bond Fund was updated, reducing the Unified Fee by 25 bps for all Share Classes, except for the R Class and T Class, which will be lowered by 14 bps and 15 bps, respectively.

On 10 January 2024, the Management Fee waivers on the relevant share classes for the Euro Short-Term Fund and the PIMCO European Short-Term Opportunities Fund were extended to 18 January 2025 and 17 January 2025, respectively. On the same date, a revised Supplement was issued in respect of the Asia Strategic Interest Bond Fund to better align the existing disclosure with most of the Company's other Funds to dictate what the minimum two thirds of the portfolio will be invested in.

On 01 February 2024, the Supplement for the Emerging Markets Bond Fund was updated, reducing the Unified Fee by 7 bps for the Institutional Share Classes and to apply a pro rata reduction across all other relevant Share Classes of the Fund.

On 06 February 2024, we were deeply saddened to hear of the death of John Bruton, a Director of the Company and the Manager.

On 21 March 2024, the Prospectus was updated to incorporate certain nonmaterial amendments, including but not limited to; updates to risk factors, clarifications to principal adverse impacts disclosures, enhancements to general ESG investing disclosures, updates to the taxation section, updates to the Directors' biographies, amendments to the anti-money laundering provisions and inclusion of event-linked bonds disclosures for certain Fund supplements, which were also updated on the same date.

On 08 April 2024, the Supplement for the PIMCO Climate Bond Fund was updated to align the Fund's exclusion strategy with PGAIL's Sustainability Exclusions Policy which has been made available on PGAIL's website and to further clarify existing disclosure relating to issuer engagement. In addition, the Annex to the Fund Supplement has also been updated to reflect these changes and to incorporate certain non-material amendments, including: clarifications to the sustainable investment objective of the Fund; updates to the sustainability indicators used to measure the attainment of the sustainable investment objective of the Fund; enhancements to clarify the manner in which the Fund's sustainable investments are assessed to ensure that they do not cause significant harm to the Fund's sustainable investment objective; and to provide confirmation that the Fund's investments do not include taxonomy-aligned gas and nuclear activities."

On the same date, the Supplement for the Low Duration Income Fund was updated to increase the Fund's permitted maximum non-USD denominated currency exposure from 10% to 15% of total assets.

Other than the above, there were no other significant events after the financial year end.

### 25. APPROVAL OF FINANCIAL STATEMENTS

The financial statements were approved by the Board on 25 April 2024.

### **Directors' Report**

The Directors present to the shareholders the audited financial statements of the Company for the financial year ended 31 December 2023.

### **DIRECTORS' RESPONSIBILITIES**

The Directors are responsible for preparing the annual report and the financial statements in accordance with applicable Irish Law and Generally Accepted Accounting Practice in Ireland including the Financial Reporting Standard 102 ("FRS 102"), "The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland" issued by the Financial Reporting Council, the Companies Act 2014 and the UCITS Regulations.

Under Irish law, the Directors shall not approve the financial statements unless they are satisfied that they give a true and fair view of the Company's assets, liabilities and financial position as at the end of the financial year and the profit or loss of the Company for the financial year.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards and identify the standards in question, subject to any material departures from those standards being disclosed and explained in the notes to the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to:

- correctly record and explain the transactions of the Company;
- enable, at any time, the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy; and
- enable the Directors to ensure that the financial statements comply with the Companies Act 2014 and enable those financial statements to be audited.

The Directors are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

### **DIRECTORS' COMPLIANCE STATEMENT**

It is the policy of the Company to comply with its relevant obligations (as defined in the Companies Act 2014). As required by Section 225(2) of the Companies Act 2014, the Directors acknowledge that they are responsible for securing the Company's compliance with the relevant obligations. The Directors have drawn up a compliance policy statement as defined in Section 225(3)(a) of the Companies Act 2014 and a compliance policy which refers to the arrangements and structures that are in place and which are, in the Directors' opinion, designed to secure material compliance with the Company's relevant obligations and have conducted a review during this financial year of any such arrangements or structures that have been put in place. In discharging their responsibilities under Section 225, the Directors relied upon, among other things, the services provided, advice and/or representations from third parties whom the Directors believe have the requisite knowledge and experience in order to secure material compliance with the Company's relevant obligations.

### **EMPLOYEES**

The Company had no employees during the financial years ended 31 December 2023 or 31 December 2022.

### STATEMENT OF RELEVANT AUDIT INFORMATION

The Directors in office at the date of this report have each confirmed that:

 as far as he/she is aware, there is no relevant audit information of which the Company's auditor is unaware; and he/she has taken all the steps that he/she ought to have taken as a
Director in order to make himself/herself aware of any relevant audit
information and to establish that the Company's auditor is aware of
that information.

### **RESULTS, ACTIVITIES AND FUTURE DEVELOPMENTS**

The results of operations and dividends declared are set out on the Statement of Operations on pages 92 through 111. A review of the Funds' investment performance and portfolio insights is contained on pages 6 through 66.

### PRINCIPAL RISKS AND UNCERTAINTIES

Details of the financial risk management objectives and policies of the Company and the exposure of the Company to market price risk, foreign currency risk, interest rate risk, liquidity risk, and credit and counterparty risk are disclosed in Note 16 in the Notes to Financial Statements.

### SIGNIFICANT EVENTS

A list of the significant events affecting the Company during the financial year is disclosed in Note 23.

### **POST BALANCE SHEET EVENTS**

A list of the post-Balance Sheet events affecting the Company after the financial year end is disclosed in Note 24.

### **ACCOUNTING RECORDS**

The measures taken by the Directors to secure compliance with the Company's obligation to keep adequate accounting records are the use of appropriate systems and procedures and employment of competent persons. The accounting records are kept at State Street Fund Services (Ireland) Limited, 78 Sir John Rogerson's Quay, Dublin D02 HD32, Ireland.

### **CORPORATE GOVERNANCE STATEMENT**

The Company is subject to and complies with Irish statute comprising the Companies Act 2014 and with the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No 352 of 2011), as may be amended (the "UCITS Regulations"), and the Listing Rules of Global Exchange Market ("GEM") of Euronext Dublin as applicable to Investment Funds. The Board of Directors (the "Board") have assessed the measures included in the voluntary Corporate Governance Code for Collective Investment Schemes and Management Companies, as published by the Irish Fund Industry Association in December 2011 (the "IFIA Code"). The Board has adopted all corporate governance practices and procedures of the IFIA Code.

The Board has assessed the measures included in the IFIA Code as being consistent with its corporate governance practices and procedures for the financial year. Each of the service providers engaged by the Company is subject to their own corporate governance requirements.

Financial Reporting Process — description of main features
The Board is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of failure to achieve the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board has established processes regarding internal control and risk management systems to ensure its effective oversight of the financial reporting process. These include appointing the Administrator, State Street Fund Administration Services (Ireland) Limited, to maintain the books and records. The Administrator is authorised and regulated by the Central Bank and must comply with the rules imposed by the Central Bank. The Administrator is also contractually obliged to prepare for review and approval by the Board the annual report including financial statements intended to give a true and fair view and the half yearly financial statements.

The Board evaluates and discusses significant accounting and reporting issues as the need arises. From time to time the Board also examines and evaluates the Administrator's financial accounting and reporting routines and monitors and evaluates the external auditors' performance, qualifications and independence. The Administrator has operating

responsibility in respect of its internal controls in relation to the financial reporting process and the Administrator's report to the Board.

### Risk Assessment

The Board is responsible for assessing the risk of irregularities whether caused by fraud or error in financial reporting and ensuring the processes are in place for the timely identification of internal and external matters with a potential effect on financial reporting. The Board has also put in place processes to identify changes in accounting rules and recommendations and to ensure that these changes are accurately reflected in the Company's financial statements.

### Control Activities

The Administrator maintains control structures to manage the risks over financial reporting. These control structures include appropriate division of responsibilities and specific control activities aimed at detecting or preventing the risk of significant deficiencies in financial reporting for every significant account in the financial statements and the related notes in the Company's annual report. Examples of control activities exercised by the Administrator include analytical review procedures, reconciliations and automated controls over IT systems. The method of valuing securities and other assets when prices are not available from external independent sources is disclosed in Note 3 in the Notes to Financial Statements.

### Information and Communication

The Company's policies and the Board's instructions with relevance for financial reporting are updated and communicated via appropriate channels, such as e-mail, correspondence and meetings to ensure that all financial reporting information requirements are met in a complete and accurate manner.

### Monitoring

The Board receives regular presentations and reviews reports from the Depositary, Investment Advisors and Administrator. The Board also has an annual process to ensure that appropriate measures are taken to consider and address the shortcomings identified and measures recommended by the Independent Auditors.

### Capital Structure

No person has a significant direct or indirect holding of securities in the Company. No person has any special rights of control over the Company's share capital.

There are no restrictions on voting rights.

### Powers of the Directors

With regard to the appointment and replacement of Directors, the Company is governed by its Articles of Association, Irish statute comprising the Companies Act 2014, the UCITS Regulations and the Listing Rules of GEM of Euronext Dublin as applicable to Investment Funds. The Articles of Association themselves may be amended by special resolution of the shareholders.

The Board is responsible for managing the business affairs of the Company in accordance with the Articles of Association. The Directors may delegate certain functions to the Administrator and other parties, subject to the supervision and direction by the Directors. The Directors have delegated the day to day administration of the Company to the Administrator and the investment management and distribution functions to the Investment Advisors. Consequently none of the Directors is an executive Director.

The Articles of Association provide that the Directors may exercise all the powers of the Company to borrow money, to mortgage or charge its undertaking, property or any part thereof and may delegate these powers to the Investment Advisors.

The Directors may, at any time and from time to time temporarily suspend the calculation of the Net Asset Value of a particular Fund and the issue, repurchase and conversion of shares in any of the following instances:

(a) during any period (other than ordinary holiday or customary weekend closings) when any market or Recognised Exchange is closed and which is the main market or Recognised Exchange for a significant part of investments of the relevant Fund, or in which trading thereon is restricted or suspended;

- (b) during any period when an emergency exists as a result of which disposal by the Company of investments which constitute a substantial portion of the assets of the relevant class is not practically feasible; or it is not possible to transfer monies involved in the acquisition or disposition of investments at normal rates of exchange; or it is not practically feasible for the Directors or their delegate fairly to determine the value of any assets of the relevant Fund;
- (c) during any breakdown in the means of communication normally employed in determining the price of any of the investments of the relevant Fund or of current prices on any market or Recognised Exchange;
- (d) when for any reason the prices of any investments of the relevant class cannot be reasonably, promptly or accurately ascertained;
- (e) during any period when remittance of monies which will or may be involved in the realisation of or in the payment for any of the investments of the relevant class cannot, in the opinion of the Directors, be carried out at normal rates of exchange;
- (f) for the purpose of winding up the Company or terminating any Fund; or
- (g) if any other reason makes it impossible or impracticable for their delegate to fairly determine the value of substantial portion of the investments of the Company or any Fund.

Notice of any such suspension and notice of the termination of any such suspension shall be given immediately to the Central Bank and to Euronext Dublin and will be notified to applicants for shares or to shareholders requesting the repurchase of shares at the time of application or filing of the written request for such repurchase. Where possible, all reasonable steps will be taken to bring any period of suspension to an end as soon as possible.

Registered shares may be transferred by instrument in writing. The instrument of transfer must be accompanied by a certificate from the transferee that it is not acquiring such shares on behalf of or for the benefit of a U.S. Person. In the case of the death of one of joint shareholders, the survivor or survivors will be the only person or persons recognised by the Administrator as having any title to or interest in the shares registered in the names of such joint shareholders. The Directors may decline to register a transfer if they are aware or reasonably believe the transfer would result in the beneficial ownership of shares by a person in contravention of any restrictions on ownership imposed by the Directors or might result in legal, regulatory, pecuniary, taxation or material administrative disadvantage to the relevant Fund or shareholders generally.

### Shareholder Meetings

The Annual General Meeting of the Company will usually be held in Dublin, normally during the month of September or such other date as the Directors may determine. Notice convening the Annual General Meeting in each year at which the audited financial statements of the Company will be presented (together with the Directors' and Auditors' Reports of the Company) will be sent to shareholders at their registered addresses not less than 21 clear days before the date fixed for the meeting. Other general meetings may be convened from time to time by the Directors in such manner as provided by Irish law.

Each of the shares entitles the holder to attend and vote at meetings of the Company and of the Fund represented by those shares. Matters may be determined by a meeting of shareholders on a show of hands unless a poll is requested by any shareholder having the right to vote at the meeting or unless the chairman of the meeting requests a poll. Each shareholder has one vote on a show of hands. Each share gives the holder one vote in relation to any matters relating to the Company which are submitted to shareholders for a vote by poll.

No class of shares confers on the holder thereof any preferential or pre-emptive rights or any rights to participate in the profits and dividends of any other share class or any voting rights in relation to matters relating solely to any other share class.

Any resolution to alter the class rights of the shares requires the approval of three quarters of the holders of the shares represented or present and voting

### Directors' Report (Cont.)

at a general meeting of the class. The quorum for any general meeting of the class convened to consider any alteration to the class rights of the shares shall be such number of shareholders being two or more persons whose holdings comprise one third of the shares.

Each of the shares other than subscriber shares entitles the shareholder to participate equally on a pro-rata basis in the dividends and net assets of the Fund in respect of which the shares have been issued, save in the case of dividends declared prior to becoming a shareholder.

Subscriber shares entitle the shareholders holding them to attend and vote at all general meetings of the Company but do not entitle the holders to participate in the dividends or net assets of the Company.

Composition and Operation of Board and Committees
There are five Directors currently, all of whom are non-executive Directors
and two of whom are independent of the Investment Advisors. The Directors
may be removed by the shareholders by ordinary resolution in accordance
with the procedures established under the Irish Companies Act 2014. The
Board meets at least quarterly during each calendar year. The Board has an
audit committee, currently consisting of the two Independent Directors,

### **CONNECTED PERSONS TRANSACTIONS**

which met four times during the financial year under review.

Transactions carried out with the Manager or depositary to a UCITS; and the delegates or sub-delegates of such a Manager or depositary (excluding any non-group company sub-custodians appointed by a depositary); and any associated or group company of such a Manager, depositary, delegate or sub-delegate (connected persons) must be carried out as if effected on normal commercial terms, negotiated at arm's length and only when in best interests of the shareholders. The Directors are satisfied that there are arrangements (evidenced by written procedures) in place to ensure that connected persons transactions are carried out as described above and that they have been complied with during the financial year.

### **DIRECTORS**

The Directors who held office during the financial year ended 31 December 2023 were:

V. Mangala Ananthanarayanan — appointed 30 June 2016 Ryan P. Blute — appointed 30 May 2014 John Bruton — appointed 28 February 2018 Craig A. Dawson — appointed 6 May 2009 David M. Kennedy — appointed 16 April 1999 Frances Ruane — appointed 28 February 2018

The Articles of Association do not provide for the retirement of Directors by rotation.

### SECRETARY

Walkers Corporate Services (Ireland) Limited held the office of Secretary for the financial year ended 31 December 2023.

## DIRECTORS' AND SECRETARY'S INTERESTS IN SHARES AND CONTRACTS

At 31 December 2023, V. Mangala Ananthanarayanan held 8,187.77 (31 December 2022: 8,187.77) shares of the PIMCO Asia High Yield Bond Fund, 5,319.15 (31 December 2022: 5,319.15) shares of the PIMCO Capital Securities Fund, Nil (31 December 2022: 8,757.87) shares of the Dynamic Multi-Asset Fund, 3,619.69 (31 December 2022: 3,619.69) shares of the Global Bond Fund and 27,543.65 (31 December 2022: 27,543.65) shares of the Income Fund, all Funds of the Company.

At 31 December 2023, Ryan P. Blute held Nil (31 December 2022: 5,387.93) shares of the PIMCO Asia High Yield Bond Fund, 28,827.68 (31 December 2022: 24,131.27) shares of the Low Average Duration Fund and 50,751.14 (31 December 2022: 82,494.63) shares of the Low Duration Income Fund, all Funds of the Company.

At 31 December 2023, Craig A. Dawson held 18,118.23 (31 December 2022: 18,118.23) shares of the PIMCO Capital Securities Fund, 97,370.98 (31 December 2022: 97,370.98) shares of the Low Duration Income Fund and 92,850.51 (31 December 2022: 92,850.51) shares of the Low Duration Opportunities Fund, all Funds of the Company.

At 31 December 2023, David M. Kennedy held 4,186.59 (31 December 2022: 4,449.56) shares of the Emerging Markets Bond Fund and 16,786.79 (31 December 2022: 16,786.79) shares of the PIMCO Balanced Income and Growth Fund, both Funds of the Company.

The Secretary held no interest in the shares of the Company during the financial years ended 31 December 2023 or 31 December 2022.

None of the Directors have a service contract with the Company.

### **LEGAL ADVISOR AS TO IRISH LAW**

Dillon Eustace LLP was Legal Advisor (as to Irish Law) to the Company during the financial year ended 31 December 2023.

### **INDEPENDENT AUDITORS**

The Independent Auditors, PricewaterhouseCoopers, have indicated their willingness to continue in office in accordance with section 383 of the Companies Act 2014.

On behalf of the Board of Directors

Director: Craig A. Dawson

Director: David M. Kennedy

and M Kennedy

Date: 25 April 2024

# Independent auditors' report to the members of PIMCO Funds: Global Investors Series plc

### Report on the audit of the financial statements

### **Opinion**

In our opinion, PIMCO Funds: Global Investors Series plc's financial statements:

- give a true and fair view of the Company's and Funds' assets, liabilities and financial position as at 31 December 2023 and of their results for the year then ended;
- have been properly prepared in accordance with Generally Accepted Accounting Practice in Ireland (accounting standards issued by the Financial Reporting Council of the UK, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and Irish law); and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report, which comprise:

- the Statement of Assets and Liabilities as at 31 December 2023;
- the Statement of Operations for the year then ended;
- the Statement of Changes in Net Assets for the year then ended;
- the Schedule of Investments for each of the Funds as at 31 December 2023; and
- the notes to the financial statements for the Company and for each of its Funds, which include a description of the significant accounting policies.

### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### *Independence*

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard as applicable to listed entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

### Our audit approach

### Overview

### Materiality

- Overall materiality: 50 basis points (2022: 50 basis points) of Net Assets Value ("NAV") at 31 December 2023 (2022: 31 December 2022) for each of the Company's Funds.
- Performance materiality: 75% of overall materiality.

### Audit scope

• The Company is an open-ended investment Company with variable capital and engages PIMCO Global Advisors (Ireland) Limited (the "Manager") to manage certain duties and responsibilities with regards to the day-to-day management of the Company. We tailored the scope of our audit taking into account the types of investments within the Funds, the involvement of the third parties referred to overleaf, the accounting processes and controls, and the industry in which the Company operates. We look at each of the Funds at an individual level.

### Key audit matters

- Valuation of financial assets and financial liabilities at fair value through profit or loss.
- Existence of financial assets and financial liabilities at fair value through profit or loss.

### The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the directors made subjective judgements, for example the selection of pricing sources to value the investment portfolio. As in all of our audits, we also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the directors that represented a risk of material misstatement due to fraud.

### Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. This is not a complete list of all risks identified by our audit.

### Key audit matter

## Valuation of financial assets and financial liabilities at fair value through profit or loss.

Refer to the Schedule of Investments for each of the Funds, the significant accounting policies set out in note 2 and Investments at fair value and fair value hierarchy set out in note 3. The financial assets and financial liabilities at fair value through profit or loss included in the Statement of Assets and Liabilities of the Funds at 31 December 2023 are valued at fair value in line with Generally Accepted Accounting Practice in Ireland. We considered the valuation of financial assets and financial liabilities at fair value through profit or loss to be a key audit matter as it represents the principal element of the financial statements.

### How our audit addressed the key audit matter

We tested the valuation of transferable securities, deposits with credit institutions and the fair value of securities sold short at 31 December 2023 to third party vendor sources where available. In the absence of third party vendor sources being available for certain level 1 or level 2 securities, we completed alternative testing procedures which included obtaining broker quote confirmations or management's pricing support.

We tested the fair value of transferable securities disclosed as level 3 investments by considering the methods and data used by management to develop the estimated fair values. We compared the results of our independent valuation to management's estimate to determine whether management's fair value estimate was reasonable. Investment funds comprise Exchange Traded Funds and Collective Investment Schemes. We tested the valuation of Exchange Traded Funds to third party vendor sources. In respect of Collective Investment Schemes we agreed the fair value to an independent confirmation from the underlying transfer agent.

We tested the fair value of repurchase agreements by agreeing the fair value to counterparty statements.

We tested the valuation of financial derivative instruments by using our internal valuation expert to develop an independent estimate of the fair value and to determine whether management's fair value estimate was reasonable, or we obtained third party vendor prices where available. No material misstatements were noted from the performance of these procedures.

## Existence of financial assets and financial liabilities at fair value through profit or loss.

Refer to the Schedule of Investments for each of the Funds, the significant accounting policies set out in note 2 and Investments at fair value and fair value hierarchy set out in note 3. The financial assets and financial liabilities at fair value through profit or loss included in the Statement of Assets and Liabilities of each Fund are held in each Fund's name at 31 December 2023. We considered the existence of financial assets and financial liabilities at fair value through profit or loss to be a key audit matter as it represents the principal element of the financial statements.

We obtained independent confirmation from the Depositary or independent counterparties of the holdings of transferable securities and deposits with credit institutions as at 31 December 2023. We reconciled the holdings per the confirmations to the holdings per the accounting records and a sample of reconciling items noted were tested to underlying supporting documentation.

For the fair value of securities sold short we obtained independent confirmations from the counterparties. Investment funds comprise Exchange Traded Funds and Collective Investment Schemes. For Exchange Traded Funds we obtained an independent confirmation from the Depositary. In respect of Collective Investment Schemes we obtained an independent confirmation from the underlying transfer agent.

For repurchase agreements we obtained independent confirmations from the counterparties.

For financial derivative instruments we obtained independent confirmations from the counterparties where possible. In the absence of the independent counterparty confirmation being

Key audit matter	How our audit addressed the key audit matter
	available, for certain positions we completed alternative testing procedures.
	For forward foreign currency contracts, we liquidated to bank statements where possible. Alternatively, where material and the maturity date is post audit sign-off date, we independently confirmed with counterparties.
	No material misstatements were noted from the performance of these procedures.

### How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the Company, the accounting processes and controls, and the industry in which it operates.

As at 31 December 2023 there are 56 Funds operating. The Company's Statement of Assets and Liabilities, Statement of Operations, and Statement of Changes in Net Assets are an aggregation of the positions and results of the Funds.

The directors control the affairs of the Company and are responsible for the overall investment policy which is determined by them. The Company engages the Manager to manage certain duties and responsibilities with regards to the day to day management of the Company. The Manager has delegated certain responsibilities to the Investment Advisors and to State Street Fund Services (Ireland) Limited (the 'Administrator'). The financial statements, which remain the responsibility of the directors, are prepared on their behalf by the Administrator. The Company has appointed State Street Custodial Services (Ireland) Limited (the "Depositary") to act as Depositary of the Company's assets. In establishing the overall approach to our audit we assessed the risk of material misstatement at a Fund level, taking into account the nature, likelihood and potential magnitude of any misstatement. As part of our risk assessment, we considered the Company's interaction with the Administrator, and we assessed the control environment in place at the Administrator.

### Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements of each of the Company's Funds as follows:

Overall materiality and how we determined it	50 basis points (2022: 50 basis points) of Net Assets Value ("NAV") at 31 December 2023 (2022: 31 December 2022) for each of the Company's Funds.
Rationale for benchmark applied	We have applied this benchmark because the main objective of the Company is to provide investors with a total return at a Fund level, taking account of the capital and income returns.

We use performance materiality to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds overall materiality. Specifically, we use performance materiality in determining the scope of our audit and the nature and extent of our testing of account balances, classes of transactions and disclosures, for example in determining sample sizes. Our performance materiality was 75% of overall materiality.

In determining the performance materiality, we considered a number of factors - the history of misstatements, risk assessment and aggregation risk and the effectiveness of controls - and concluded that an amount at the upper end of our normal range was appropriate.

We agreed with the Board of Directors that we would report to them misstatements identified during our audit above 10% of overall materiality, for NAV per share impacting differences (2022: 10% of overall materiality, for NAV per share impacting differences) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

### Conclusions relating to going concern

Our evaluation of the directors' assessment of the Company's and Funds' ability to continue to adopt the going concern basis of accounting included:

- Obtaining an understanding of the key indicators that are monitored with respect to the going concern assumption and management's future plans for the Funds over the going concern period (being 12 months from the date of approval of the financial statements);
- Reviewing the available board minutes during the period under audit and those available up to the date of this report;

- Considering post year end capital activity as recorded in the underlying accounting records;
- Making enquiries of management with respect to any planned significant redemptions of which they have been informed
  of:
- Considering the liquidity risk management techniques which are available to the Company and Funds.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's and Funds' ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Company's and Funds' ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

### Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Directors' Report, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 31 December 2023 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Directors' Report.

### Responsibilities for the financial statements and the audit

### Responsibilities of the directors for the financial statements

As explained more fully in the Directors' Responsibilities set out on page 884, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's and Funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

### Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the Company and industry, we identified that the principal risks of non-compliance with laws and regulations related to irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below, and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the preparation of the financial statements such as the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended). We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to risk of management override of control.

Audit procedures performed by the engagement team included:

- Enquiry of management to identify any instances of non-compliance with laws and regulations;
- Identifying and testing journal entries that met our specific risk based criteria;
- Testing accounting estimates and judgements and considered potential for management bias;
- Designing audit procedures to incorporate unpredictability around the nature, timing or extent of our testing; and
- Reviewing minutes of the meetings of the Board of Directors.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description of auditors responsibilities for audit.pdf.

This description forms part of our auditors' report.

### Use of this report

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

### Other required reporting

### **Companies Act 2014 opinions on other matters**

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.

### **Companies Act 2014 exception reporting**

### Directors' remuneration and transactions

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

Mary Ruane

for and on behalf of PricewaterhouseCoopers Chartered Accountants and Statutory Audit Firm Dublin

25 April 2024

### **Depositary's Report**

We have enquired into the conduct of PIMCO Funds: Global Investors Series plc (the "Company") for the financial year ended 31 December 2023, in our capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company as a body, in accordance with Regulation 34, (1), (3) and (4) in Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, ('the UCITS Regulations'), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

### **RESPONSIBILITIES OF THE DEPOSITARY**

Our duties and responsibilities are outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that financial period in accordance with the provisions of the Company's constitution (the "Constitution") and the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

### **BASIS OF DEPOSITARY OPINION**

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the Constitution and the UCITS Regulations and (ii) otherwise in accordance with the Constitution and the appropriate regulations.

### **OPINION**

In our opinion, the Company has been managed during the financial period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Constitution, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019, ('the Central Bank UCITS Regulations'); and
- (ii) otherwise in accordance with the provisions of the Constitution, the UCITS Regulations and the Central Bank UCITS Regulations.

State Street Custodial Services (Ireland) Limited,

78 Sir John Rogerson's Quay, Dublin D02 HD32

Ireland

Date: 25 April 2024

**Remuneration Disclosures** (Unaudited)

PIMCO Global Advisors (Ireland) Limited (the "Manager"), in accordance with its obligations under Directive 2009/65/EC, as amended (the "UCITS Directive") is required to have remuneration policies and practices for those categories of staff, including senior management, risk takers, control functions, and any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risktakers, whose professional activities have a material impact on the risk profiles of the Manager or any Undertakings for Collective Investment in Transferable Securities ("UCITS") under management, that are consistent with and promote sound and effective risk management and do not encourage risktaking which is inconsistent with the risk profiles, rules or instruments of incorporation of the Manager or PIMCO Funds: Global Investors Series plc (the "Company").

The remuneration policy also includes information on the integration of sustainability risks in the Manager's remuneration procedures, as required by the EU Sustainable Finance Disclosure Regulation (2019/2088).

Remuneration consists of all forms of payments or benefits made directly by, or indirectly, but on behalf of the Manager, in exchange for professional services rendered by staff. This shall include where appropriate: (i) all forms of payments or benefits paid by the Manager; (ii) any amount paid by the Company, including any portion of performance fees; and/or (iii) any transfer of units or shares of any Company; in exchange for professional services rendered by the Identified Staff. Fixed remuneration means payments or benefits without consideration of any performance criteria. Variable remuneration means additional payments or benefits depending on performance or, in certain cases, other contractual criteria.

Disclosures are provided in relation to (a) the staff of the Manager; (b) staff who are senior management; and (c) staff who have the ability to materially affect the risk profile of the Fund, including individuals who, although not directly employed by the Manager, are assigned by their employer to carry out services directly for the Manager ("Delegates").

The amount of the total remuneration awarded by the Manager to its staff which has been attributed to the Manager's UCITS related business in respect of the Manager's financial year ending 31 December 2023 is €180,000. This figure is comprised of fixed remuneration of €180,000 and variable remuneration of €Nil. There were a total of 3 beneficiaries of the remuneration described above.

The amount of the aggregate remuneration awarded by the Manager, which has been attributed to the Manager's UCITS-related business in respect of the Manager's financial year ending 31 December 2023, to its senior management was \$Nil. and to other members of its staff whose actions have a material impact on the risk profile of the Manager's UCITS-related business was \$Nil.

The amount of total remuneration awarded by Delegates to their Identified Staff which has been attributed to the sub-funds in respect of the financial year ended 31 December 2023 is \$10,515,112. This figure is comprised of fixed remuneration of \$84,451 and variable remuneration of \$10,430,661. There were a total of 62 beneficiaries of the remuneration described above.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Repurchase Agreements, which may be utilised for uninvested Fund cash and which usually mature the next business day, and securities held to maturity, which matured during the reporting period, have been excluded from the Significant Changes in Portfolio Composition.

Ford Motor Credit Co. LLC			

(a) The Diversified Income Fund is investing in shares of an affiliated fund.

4.675% due 01/12/2024

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Repurchase Agreements, which may be utilised for uninvested Fund cash and which usually mature the next business day, and securities held to maturity, which matured during the reporting period, have been excluded from the Significant Changes in Portfolio Composition.

- (a) The Global Bond Fund is investing in shares of an affiliated fund.
- (b) Principal amount of security is adjusted for inflation.

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Repurchase Agreements, which may be utilised for uninvested Fund cash and which usually mature the next business day, and securities held to maturity, which matured during the reporting period, have been excluded from the Significant Changes in Portfolio Composition.

- (a) The US Short-Term Fund is investing in shares of an affiliated fund.
- (b) Principal amount of security is adjusted for inflation.

#### **Portfolio Turnover Rate**

This report has been prepared in support of the Shareholder Rights Directive II disclosures to institutional investors.

The length of time a Fund has held a particular security is not generally a consideration in investment decisions. A change in the securities held by a Fund is known as "portfolio turnover." Each Fund may engage in frequent and active trading of portfolio securities to achieve its investment objective, particularly during periods of volatile market movements. High portfolio turnover may involve correspondingly greater transaction costs, including brokerage commissions or dealer mark-ups and other transaction costs on the sale of securities and reinvestments in other securities, which are borne by the Fund. Such sales may also result in realisation of taxable capital gains, including short-term capital gains (which are generally taxed at ordinary income tax rates when distributed to shareholders). The transaction costs associated with portfolio turnover may adversely affect a Fund's performance.

The following security types are excluded from the calculation of the portfolio turnover rate: affiliated investment funds, financial derivative instruments, TBA Mortgage Dollar Rolls, sale-buybacks and other short-term instruments with a maturity of less than 365 days.

The portfolio turnover rate for the financial year ending 31 December 2023 for each Fund is as follows:

Fund Name	2023 Portfolio Turnover Rate

### Sustainable Finance Disclosure Regulation and Taxonomy Regulation Disclosures (Unaudited) 31 December 2023

All data presented in the annexes which follow have been calculated based on the portfolio holdings of the relevant Fund as at 31 December 2023 and constitutes unaudited information which has not been subject to any assurance provided by the Auditors or any third party. All data and other information contained in the annexes have been compiled in accordance with the proprietary sustainable finance framework implemented by the Manager and the Investment Advisor for the relevant Fund. The PIMCO European High Yield Bond Fund has been classified pursuant to Article 8 of the Sustainable Finance Disclosures Regulation since 29 September 2023.

#### **Taxonomy Regulation**

For Funds that are classified as Article 8 or Article 9 under SFDR, please refer to the Annex for each respective Fund appended herein for information relating to alignment with Regulation EU/2020/852, commonly referred to as the Taxonomy Regulation. For Funds that are not classified as Article 8 (i.e. do not promote environmental and/or social characteristics) or Article 9 (i.e. do not have a sustainable investment objective) under SFDR, the underlying investments do not take into account the EU criteria for environmentally sustainable economic activities.

#### ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name:** PIMCO Capital Securities Fund

social objective: \_\_\_%

#### Legal entity identifier: 549300L0UVRKJJGJK009

not make any sustainable investments

# Environmental and/or social characteristics

#### Did this financial product have a sustainable investment objective? Yes No It promoted Environmental/Social (E/S) It made sustainable investments with characteristics and while it did not have an environmental objective: \_\_% as its objective a sustainable investment, it had a proportion of % in economic activities that qualify as environmentally sustainable under the of sustainable investments **EU Taxonomy** with an environmental objective in economic activities that qualify as environmentally in economic activities that do not qualify sustainable under the EU Taxonomy as environmentally sustainable under the **EU Taxonomy** with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy with a social objective It made sustainable investments with a It promoted E/S characteristics, but did

#### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted environmental and/or social characteristics by operating an exclusion strategy. The Fund also promoted environmental and/or social characteristics by actively engaging with certain issuers as applicable (examples of such engagement included material climate related matters) which for example, included encouraging issuers to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

## How did the sustainability indicators perform?

The attainment of each of the environmental and/or social characteristics promoted by the Fund was measured through the Investment Advisor's implementation of its exclusion strategy, as well as the Investment Advisor's implementation of its issuer engagement policy. The Fund's exclusion strategy applies to 100% of its direct investments.

For example, the Fund's exclusion strategy resulted in the exclusion of certain sectors including issuers principally involved in coal and unconventional oil (such as arctic oil and oil sands). In addition, the Investment Advisor referred to globally accepted norms such as the UN Global Compact Principles, where appropriate.

## ...and compared to previous periods?

Information on the historical comparison of the Fund's sustainability-related investments is available below in response to the question "What was the proportion of sustainability-related investments?".

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does

not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

#### What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: as at 31 December 2023

Largest investments	Sector	% Net Assets	Country
Stichting AK Rabobank Certificaten 6.500%	Investment Grade Credit	3.23%	Netherlands

Intesa Sanpaolo SpA 9.125% due 07/09/2029	High Yield Credit	1.25%	Italy
Mitsubishi UFJ Financial Group, Inc. 8.200% due 15/01/2029	Investment Grade Credit	1.21%	Japan

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2023 have been used.

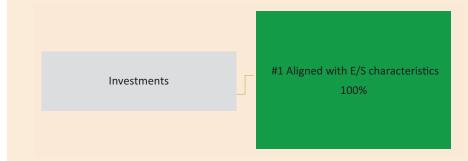

#### What was the proportion of sustainability-related investments?

Information on the proportion of the Fund which promoted environmental/social characteristics as at 31 December 2023 is provided below.

#### What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

- **#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.
- #2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

### Sustainable Finance Disclosure Regulation and Taxonomy Regulation Disclosures (Unaudited) (Cont.)

As at 31 December 2023, 100% of the Fund's direct investments were considered to promote environmental and/ or social characteristics as the Fund's exclusion strategy was applied to all of its direct investments (31 December 2022: 100%). Minimum environmental or social safeguards were provided for such direct investments only and did not apply to indirect investments.

## In which economic sectors were the investments made?

Sector	% of Net Assets
Investment Grade Credit	63.65%
High Yield Credit	27.11%
Government Related	13.94%
Emerging Markets External	0.02%
Net Other Short Duration Instruments	-4.72%

For the purposes of compiling the information disclosed above, the holdings of the Fund as at 31 December 2023 have been used.

# To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As at 31 December 2023, the percentage of investments that were aligned with the EU Taxonomy is 0% (31 December 2022: 0%). This figure has not been subject to an assurance provided by an auditor nor has it been reviewed by any other third party.

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

✓ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

# Transitional activities are

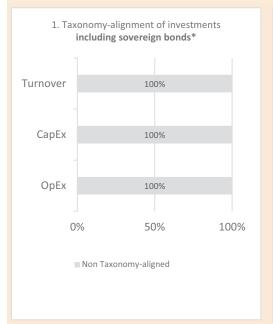

activities for which lowcarbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

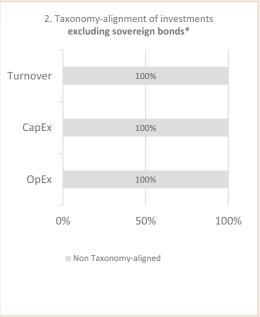

<sup>&</sup>lt;sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomyalignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

<sup>\*</sup> For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

#### What was the share of investments made in transitional and enabling activities?

As at 31 December 2023, the proportion of investments of the Fund in transitional and enabling activities during the reference period was 0% (31 December 2022: 0%).

### What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2023, 100% of the Fund's direct investments were considered to promote environmental and/or social characteristics as the Fund's exclusion strategy was applied to all of its direct investments. (31 December 2022: 100%).

Minimum environmental or social safeguards were provided for such direct investments only and did not apply to indirect investments.

#### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers as applicable (examples of such engagement included material climate related matters) including for example by encouraging issuers to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitment.

#### ANNEX V

Periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: PIMCO Climate Bond Fund

Legal entity identifier: 549300KBV832SKE8DW37

# Sustainable investment objective

#### Did this financial product have a sustainable investment objective? Yes No It promoted Environmental/Social (E/S) It made sustainable investments with characteristics and while it did not have an environmental objective: 92% as its objective a sustainable investment, it had a proportion of % in economic activities that qualify of sustainable investments as environmentally sustainable under the **EU Taxonomy** with an environmental objective in economic activities that qualify as environmentally in economic activities that do not qualify sustainable under the EU Taxonomy as environmentally sustainable under the **EU Taxonomy** with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy with a social objective It made sustainable investments with a It promoted E/S characteristics, but did social objective: 1%\*\* not make any sustainable investments \*\*While the Fund did invest in sustainable investments with a social objective during the period covered by this report, it has not made any commitment to invest in this category of investments and consequently any such investments acquired by the Fund should be considered incidental in nature

environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation

Sustainable

**investment** means an investment in an

economic activity that contributes to an

a classification system laid down in Regulation (EU) 2020/852 establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of

not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

#### To what extent was the sustainable investment objective of this financial product met?

During the period, the Fund sought to seek optimal risk adjusted returns, consistent with prudent investment management, while giving consideration to long term climate related risks and opportunities.

As further detailed below in the section entiled "Asset Allocation", the Fund invested in sustainable investments which comprised of ESG Fixed Income Securities (as further described in the section of the Prospectus entitled "ESG Fixed Income Securities") which enable issuers to raise capital to fund projects with positive environmental benefits and which contributed to the environmental objectives of climate change adaptation and climate change mitigation.

Derivatives held by the Fund during the period were screened against the exclusion strategy implemented by the Investment Advisor and accordingly were used for the purposes of attaining the Fund's sustainable investment objective.

#### How did the sustainability indicators perform?

The attainment of the Fund's sustainable investment objective was measured through the Investment Advisor's implementation of its issuer engagement policy, exclusion strategy and investment in ESG Fixed Income Securities (as further described in the section of the Prospectus entitled **"ESG Fixed Income Securities"**).

**Sustainability indicators** measure how the sustainable objectives of this financial product are attained.

For example, the Fund's screening process resulted in the exclusion of certain sectors including issuers involved in the fossil fuel related sectors. In addition, the Investment Advisor referred to globally accepted norms, such as, the UN Global Compact Principles and the UN Guiding Principles on Business and Human Rights, where appropriate.

#### How did the sustainable investments not cause significant harm to any sustainable investment objective?

The Fund's sustainable investments were assessed to seek to ensure that they do not cause significant harm to any environmental or social sustainable investment objective. This assessment was carried out by the Investment Advisor's application of various adverse sustainability indicators, including but not limited to exposure to the fossil fuel related sectors and greenhouse gas emissions.

How were the indicators for adverse impacts on sustainability factors taken into account?

Securities were selected according to the Investment Advisor's internal sustainability screening process. This screening process included consideration of adverse impacts on sustainability factors including exposure to the fossil fuel related sectors. The Investment Advisor sought to mitigate principal adverse impacts including, for example, through issuer engagement and exclusion screening.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Advisor satisfied itself that sustainable investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights through the use of UNGC (UN Global Compact) controversies screening along with other tools including ESG scores and research as part of the investment due diligence process.

#### How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are described as those impacts of investment decisions that "result in negative effects on sustainability factors" while sustainability factors are defined as "environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters".

The Fund considered the principal adverse impacts of investment decisions on sustainability factors (including but not limited to, exposure to the fossil fuel related sectors and greenhouse gas emissions) during the reference period.

The Investment Advisor sought to consider principal adverse impacts as part of the investment process and used a combination of methods to help mitigate principal adverse impacts including issuer engagement and exclusions.

#### What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: as at 31 December 2023

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2023 have been used.

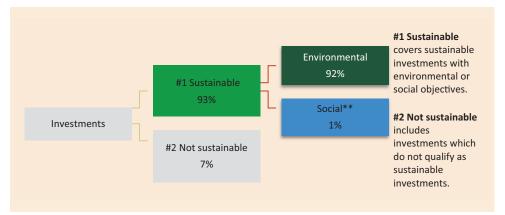

#### What was the proportion of sustainability-related investments?

Information on the proportion of the Fund which was invested in sustainable investments as at 31 December 2023 is provided below.

#### What was the asset allocation?

**Asset allocation** describes the share of investments in specific assets.

As at 31 December 2023, the Fund was wholly invested in sustainable investments save for those investments which were held for held for other purposes such as liquidity or hedging.

As at 31 December 2023, the Fund invested 93% of its net assets in sustainable investments (31 December 2022: 81%). 92% of net assets were invested in sustainable investments which contributed to an environmental objective (31 December 2022: 80%).

\*\*The Fund also held 1% of net assets in sustainable investments which contribute to a social objective (31 December 2022: 1%). It should be noted that the Fund has not made any commitment to invest in sustainable investments which contribute to a social objective and such investments should be considered incidental in

The Fund invested 7% of its net assets in investments of the Fund which did not constitute "sustainable investments" which were used for overall risk management such as liquidity or hedging (31 December 2022:

### In which economic sectors were the investments made?

Sector	% of Net Assets
Investment Grade Credit	49.48%

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2023 have been used.

#### To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

As at 31 December 2023, the percentage of investments that were aligned with the EU Taxonomy is 0% (31 December 2022: 0%). This figure has not been subject to an assurance provided by an auditor nor has it been reviewed by any other third party.

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy1?

In fossil gas

In nuclear energy

No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear** energy, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional** activities are

activities for which lowcarbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

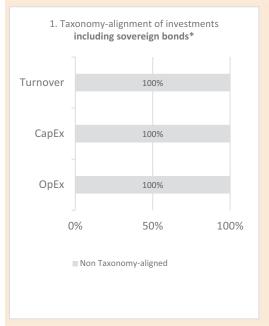

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

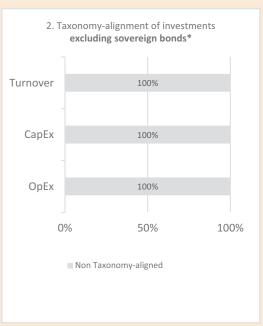

#### Sustainable Finance Disclosure Regulation and Taxonomy Regulation Disclosures (Unaudited) (Cont.)

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomyalignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

<sup>\*</sup> For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

#### What was the share of investments made in transitional and enabling activities?

As at 31 December 2023, the proportion of investments of the Fund in transitional and enabling activities during the reference period was 0% (31 December 2022: 0%).

sustainable investments with an environmental objective that **do not** take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

#### What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

The Fund does not commit to invest in investments aligned with the EU Taxonomy but does commit to invest in sustainable investments which contribute to an environmental objective. As at 31 December 2023, the proportion of sustainable investments of the Fund which contributed to an environmental objective which were not assessed against the EU Taxonomy and therefore categorised as "Other Environmental" investments above is 92% (31 December 2022: 80%). For further information with respect to sustainability-related data availability and data challenges please refer to https://europe.pimco.com/en-eu/our-firm/global-advisors-ireland.

### What was the share of socially sustainable investments?

As noted above, as at 31 December 2023, the Fund held 1% in sustainable investments which contribute to a social objective during the period covered by the financial statements (31 December 2022: 1%). As the Fund has not made any commitment to invest in sustainable investments which contribute to a social objective, such investments should be considered incidental in nature.

#### What investments were included under "not sustainable", what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2023, the Fund was wholly invested in sustainable investments save for those investments which were held for held for other purposes such as liquidity or hedging. As described in greater detail above, as at 31 December 2023, the Fund invested 93% of its net assets in sustainable investments (31 December 2022: 81%).

The proportion of the investments of the Fund which did not constitute "sustainable investments" were used for overall risk management such as liquidity or hedging. Issuers and derivatives used for the attainment of such purposes were subject to ESG-related screening that seek to ensure the meeting of minimum relevant environmental and/or social safeguards as applicable.

#### What actions have been taken to attain the sustainable investment objective during the reference period?

During the reference period, the Investment Advisor engaged with companies and issuers on material climate related matters and sought to encourage companies to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitment.

#### ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Environmental and/or social characteristics

Legal entity identifier: 549300ECS7VMY4LHDC04

It promoted E/S characteristics, but did

not make any sustainable investments

Sustainable **Product name:** Diversified Income ESG Fund

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that

the investment does not significantly harm any environmental or social objective and that the investee governance practices.

# To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund's approach to sustainable investing is through the promotion of environmental and/or social characteristics (while the Fund does not have sustainable investment as its objective, it seeks to invest a portion of its assets in sustainable investments).

As detailed below, the sustainable investments held by the Fund during the reference period contributed to the environmental objectives of climate change adaptation and/or climate change mitigation.

Derivatives (with the exception of index derivatives) held by the Fund during the period were screened against the exclusion strategy implemented by the Investment Advisor and accordingly were used to promote the environmental and/or social characteristics promoted by the Fund.

How did the sustainability indicators perform?

The attainment of each of the environmental and/or social characteristics promoted by the Fund was measured through the Investment Advisor's implementation of its exclusion strategy, issuer engagement policy and investment in certain ESG Fixed Income Securities (as further described in the section of the Prospectus entitled "ESG Fixed Income Securities") which enable issuers to raise capital to fund projects with positive environmental benefits as well as in the debt of issuers demonstrating leadership in addressing risk and opportunities around climate related change.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable

Did this financial product have a sustainable investment objective? Yes No It promoted Environmental/Social (E/S) companies follow good It made sustainable investments with / characteristics and while it did not have an environmental objective: \_\_% as its objective a sustainable investment, it had a proportion of 35% in economic activities that qualify of sustainable investments as environmentally sustainable under the **EU Taxonomy** with an environmental objective in economic activities that qualify as environmentally in economic activities that do not qualify sustainable under the EU Taxonomy as environmentally sustainable under the **EU Taxonomy** with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy with a social objective \*\* investments with an environmental objective might be aligned with the Taxonomy or not. \*\*While the Fund did invest in sustainable investments with a social objective during the period covered by this report, it has not made any commitment to invest in this category of investments and consequently any such investments acquired by the Fund should be considered incidental in nature

It made sustainable investments with a

social objective: \_\_\_%

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

For example, the Fund's exclusion strategy resulted in the exclusion of certain sectors including issuers involved in Fossil Fuel related sectors (including issuers engaged principally in the oil industry, including extraction, production, refining, transportation, or the mining and sale of coal and coal-fired generation).

In addition, as part of the Fund's screening process, the Investment Advisor referred to globally accepted norms, such as, the UN Global Compact Principles and the UN Guiding Principles on Business and Human Rights, where appropriate.

### ...and compared to previous periods?

Information on the historical comparison of the Fund's sustainability-related investments is available below in response to the question "What was the proportion of sustainability-related investments?".

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Fund's underlying sustainable investments contributed to the environmental objectives of climate change mitigation and climate change adaptation during the reference period which was achieved in a variety of ways, including by way of example, investment in ESG Fixed Income Securities (as further described in the section of the Prospectus entitled "ESG Fixed Income Securities") including green bonds.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Fund's sustainable investments were assessed to seek to ensure that they do not cause significant harm to any environmental or social objective. This assessment was carried out by the Investment Advisor's application of various adverse sustainability indicators, including but not limited to, exposure to Fossil Fuel related sectors (as described above) and greenhouse gas emissions.

How were the indicators for adverse impacts on sustainability factors taken into account?

Securities were selected according to the Investment Advisor's internal sustainability screening process. This screening process includes consideration of adverse impacts on sustainability factors including exposure to the Fossil Fuel related sectors (as described above) and exposure to military weapons. The Investment Advisor sought to mitigate principal adverse impacts including, for example, through its exclusion strategy and issuer engagement.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Advisor satisfied itself that sustainable investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights through the use of UNGC (UN Global Compact) controversies screening along with other tools including ESG scores and research as part of the investment due diligence process.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse **impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery

matters.

### Sustainable Finance Disclosure Regulation and Taxonomy Regulation Disclosures (Unaudited) (Cont.)

# How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are described as those impacts of investment decisions that "result in negative effects on sustainability factors" while sustainability factors are defined as "environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters". The Investment Advisor sought to consider principal adverse impacts as part of the investment process and used a combination of methods to help mitigate principal adverse impacts including exclusions and issuer engagement.

The Fund considered the principal adverse impacts of investment decisions on sustainability factors (including but not limited to, exposure to the Fossil Fuel related sectors (as described above), the military weapons sector and greenhouse gas emissions) during the reference period.

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2023 have been used.

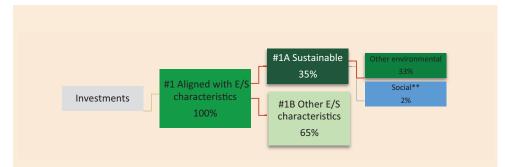

#### Asset allocation describes the share of investments in specific assets.

#### What was the proportion of sustainability-related investments?

Information on the proportion of the Fund which promoted environmental/social characteristics and the proportion of the Fund invested in sustainable investments as at 31 December 2023 is provided below.

## What was the asset allocation?

- #1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.
- #2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

As at 31 December 2023, 100% of the Fund's investments were considered to promote environmental and/or social characteristics because all of the Fund's investments (with the exception of index derivatives) were screened against its exclusion strategy (31 December 2022: 100%).

As at 31 December 2023, the Fund invested 35% of its net assets in sustainable investments (31 December 2022: 47%). 33% of net assets were invested in sustainable investments which contributed to an environmental objective (31 December 2022: 45%).

\*\*The Fund also held 2% of net assets in sustainable investments which contribute to a social objective (31 December 2022: 2%). It should be noted that the Fund has not made any commitment to invest in sustainable investments which contribute to a social objective and such investments should be considered incidental in nature.

#### In which economic sectors were the investments made?

Sector	% of Net Assets
Investment Grade Credit	34.81%

Emerging Markets External	16.79%
Securitised	11.52%
Other	6.79%
Net Other Short Duration Instruments	1.78%
Government Related	0.67%
Emerging Markets Local	0.41%

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2023 have been used.

#### Sustainable Finance Disclosure Regulation and Taxonomy Regulation Disclosures (Unaudited) (Cont.)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- turnover reflecting

- the share of revenue from green activities of investee companies
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

# To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As at 31 December 2023, the percentage of investments that were aligned with the EU Taxonomy is 0% (31 December 2022: 0%). This figure has not been subject to an assurance provided by an auditor nor has it been reviewed by any other third party.

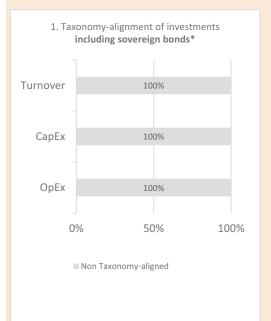

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

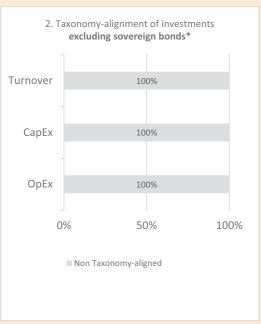

Yes:

In fossil gas In nuclear energy

/ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective—see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

#### What was the share of investments made in transitional and enabling activities?

As at 31 December 2023, the proportion of investments of the Fund in transitional and enabling activities during the reference period was 0% (31 December 2022: 0%).

#### What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Fund does not commit to invest in investments aligned with the EU Taxonomy but does commit to invest in sustainable investments which contribute to an environmental objective. As at 31 December 2023, the proportion of sustainable investments of the Fund which contributed to an environmental objective which were not assessed against the EU Taxonomy and therefore categorised as "Other Environmental" investments above is 33% (31 December 2022: 45%). For further information with respect to sustainability-related data availability and data challenges please refer to https://europe.pimco.com/en-eu/our-firm/global-advisors-ireland.

#### What was the share of socially sustainable investments?

As noted above, as at 31 December 2023, the Fund held 2% of net assets in sustainable investments which contributed to a social objective during the period covered by these financial statements (31 December 2022: 2%). As the Fund has not made any commitment to invest in sustainable investments which contribute to a social objective, such investments should be considered incidental in nature.

#### What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2023, 100% of the Fund's investments were considered to promote environmental and/or social characteristics because all of the Fund's investments (with the exception of index derivatives) were screened against its exclusion strategy (31 December 2022: 100%).

As outlined in greater detail above, as at 31 December 2023, the Fund invested 35% of its net assets in sustainable investments (31 December 2022: 47%).

#### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers as applicable (examples of such engagement included material climate and biodiversity related matters), including for example, by seeking to encourage issuers to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitment.

#### **ANNEX IV**

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable Product name: Dynamic Multi-Asset Fund

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities.

That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Legal entity identifier: 549300ZZOV14P64W6594

#### Did this financial product have a sustainable investment objective? Yes No It promoted Environmental/Social (E/S) It made sustainable investments with characteristics and while it did not have an environmental objective: \_\_\_\_% as its objective a sustainable investment, it had a proportion of % in economic activities that qualify as environmentally sustainable under the of sustainable investments **EU Taxonomy** with an environmental objective in economic activities that qualify as environmentally in economic activities that do not qualify as sustainable under the EU Taxonomy environmentally sustainable under the EU Taxonomy with an environmental objective in economic activities that do not qualify as environmentally sustainable under the **EU Taxonomy** with a social objective It made sustainable investments with a It promoted E/S characteristics, but did social objective: \_\_\_\_% not make any sustainable investments

# To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted environmental and/or social characteristics by operating an exclusion strategy. The Fund also promoted environmental and/or social characteristics by actively engaging with certain issuers as applicable (examples of such engagement included material climate related matters) which for example, included encouraging issuers to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are

attained.

## How did the sustainability indicators perform?

The attainment of each of the environmental and/or social characteristics promoted by the Fund was measured through the Investment Advisor's implementation of its exclusion strategy, as well as the Investment Advisor's implementation of its issuer engagement policy. The Fund's exclusion strategy applies to 100% of its direct investments.

For example, the Fund's exclusion strategy resulted in the exclusion of certain sectors including issuers principally involved in coal and unconventional oil (such as arctic oil and oil sands). In addition, the Investment Advisor referred to globally accepted norms such as the UN Global Compact Principles, where appropriate.

...and compared to previous periods?

Information on the historical comparison of the Fund's sustainability-related investments is available below in response to the question "What was the proportion of sustainability-related investments?".

High Yield Credit	0.67%
Net Short Duration Instruments	-31.20%

For the purposes of compiling the information disclosed above, the holdings of the Fund as at 31 December 2023 have been used.

To comply with the EU Taxonomy, the criteria for **fossil** gas include limitations on emissions and switching to renewable power or low-carbon fuels by the end of

2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional** activities are

activities for which lowcarbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As at 31 December 2023, the percentage of investments that were aligned with the EU Taxonomy is 0% (31 December 2022: 0%). This figure has not been subject to an assurance provided by an auditor nor has it been reviewed by any other third party.

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy1?

Yes:

In fossil gas In	nuclear energy
------------------	----------------

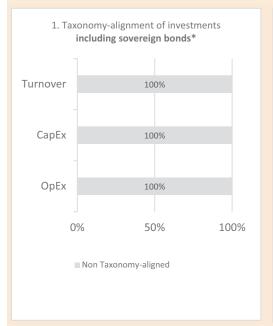

No

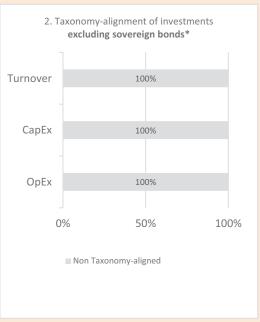

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomyalignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

<sup>\*</sup> For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

#### What was the share of investments made in transitional and enabling activities?

As at 31 December 2023, the proportion of investments of the Fund in transitional and enabling activities during the reference period was 0% (31 December 2022: 0%).

### What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?s

As noted above, as at 31 December 2023, 100% of the Fund's direct investments were considered to promote environmental and/or social characteristics as the Fund's exclusion strategy was applied to all of its direct investments. (31 December 2022: 100%).

Minimum environmental or social safeguards were provided for such direct investments only and did not apply to indirect investments.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers as applicable (examples of such engagement included material climate related matters) including for example by encouraging issuers to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitment.

### **ANNEX IV**

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name:** Emerging Local Bond ESG Fund

Legal entity identifier: 549300XJ4S7ZD2HUGI18

not make any sustainable investments

### Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective? Yes No It promoted Environmental/Social (E/S) It made sustainable investments with characteristics and while it did not have an environmental objective: % as its objective a sustainable investment, it had a proportion of 19% in economic activities that qualify of sustainable investments as environmentally sustainable under the **EU Taxonomy** with an environmental objective in economic activities that qualify as environmentally in economic activities that do not qualify sustainable under the EU Taxonomy as environmentally sustainable under the **EU Taxonomy** with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy with a social objective \*\* \*\*While the Fund did invest in sustainable investments with a social objective during the period covered by this report, it has not made any commitment to invest in this category of investments and consequently any such investments acquired by the Fund should be considered incidental in nature It made sustainable investments with a It promoted E/S characteristics, but did

## To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund's approach to sustainable investing is through the promotion of environmental and/or social characteristics (while the Fund does not have sustainable investment as its objective, it seeks to invest a portion of its assets in sustainable investments).

As detailed below, the sustainable investments held by the Fund during the reference period contributed to the environmental objectives of climate change adaptation and/or climate change mitigation.

Derivatives (with the exception of index derivatives) held by the Fund during the period were screened against the exclusion strategy implemented by the Investment Advisor and accordingly were used to promote the environmental and/or social characteristics promoted by the Fund.

social objective: %

#### How did the sustainability indicators perform?

The attainment of each of the environmental and/or social characteristics promoted by the Fund was measured through the Investment Advisor's implementation of its exclusion strategy, issuer engagement policy and investment in certain ESG Fixed Income Securities (as further described in the section of the Prospectus entitled "ESG Fixed Income Securities") which enable issuers to raise capital to fund projects with positive environmental benefits as well as in the debt of issuers demonstrating leadership in addressing risk and opportunities around climate related change.

**Sustainability indicators** measure
how the environmental

promoted by the
financial product are
attained.

Sustainable

**investment** means an investment in an

economic activity that contributes to an environmental or social objective, provided that

the investment does not significantly harm any environmental or

social objective and that the investee companies follow good

governance practices.

The **EU Taxonomy** is

a classification system

establishing a list of

environmentally

economic activities.

That Regulation does

not lay down a list of

socially sustainable

economic activities. Sustainable investments with an

environmental objective might be aligned with the Taxonomy or not.

(EU) 2020/852,

sustainable

laid down in Regulation

For example, the Fund's exclusion strategy resulted in the exclusion of certain sectors including issuers involved in Fossil Fuel related sectors (including issuers engaged principally in the oil industry, including extraction, production, refining, transportation, or the mining and sale of coal and coal-fired generation).

In addition, as part of the Fund's screening process, the Investment Advisor referred to globally accepted norms, such as, the UN Global Compact Principles and the UN Guiding Principles on Business and Human Rights, where appropriate.

...and compared to previous periods?

Information on the historical comparison of the Fund's sustainability-related investments is available below in response to the question "What was the proportion of sustainability-related investments?".

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Fund's underlying sustainable investments contributed to the environmental objectives of climate change mitigation and climate change adaptation during the reference period which was achieved in a variety of ways, including by way of example, investment in ESG Fixed Income Securities (as further described in the section of the Prospectus entitled "ESG Fixed Income Securities") including green bonds.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Fund's sustainable investments were assessed to seek to ensure that they do not cause significant harm to any environmental or social objective. This assessment was carried out by the Investment Advisor's application of various adverse sustainability indicators, including but not limited to, exposure to Fossil Fuel related sectors (as described above) and greenhouse gas emissions.

-- How were the indicators for adverse impacts on sustainability factors taken into account?

Securities were selected according to the Investment Advisor's internal sustainability screening process. This screening process includes consideration of adverse impacts on sustainability factors including exposure to the Fossil Fuel related sectors (as described above) and exposure to military weapons. The Investment Advisor sought to mitigate principal adverse impacts including, for example, through its exclusion strategy and issuer engagement.

-- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Advisor satisfied itself that sustainable investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights through the use of UNGC (UN Global Compact) controversies screening along with other tools including ESG scores and research as part of the investment due diligence process.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

**Principal adverse**

decisions on

relating to

**impacts** are the most

## How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are described as those impacts of investment decisions that "result in negative effects on sustainability factors" while sustainability factors are defined as "environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters". The Investment Advisor sought to consider principal adverse impacts as part of the investment process and used a combination of methods to help mitigate principal adverse impacts including exclusions and issuer engagement.

The Fund considered the principal adverse impacts of investment decisions on sustainability factors (including but not limited to, exposure to the Fossil Fuel related sectors (as described above), the military weapons sector and greenhouse gas emissions) during the reference period.

### What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: as at 31 December 2023

Largest investments	Sector	% Net Assets	Country

Poland Government International Bond 6.000% due 25/10/2033	Government Related	1.58%	Poland

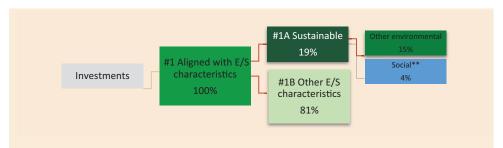

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2023 have been used.

### What was the proportion of sustainability-related investments?

Information on the proportion of the Fund which promoted environmental/social characteristics and the proportion of the Fund invested in sustainable investments as at 31 December 2023 is provided below.

#### What was the asset allocation?

- #1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.
- #2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

Asset allocation describes the share of investments in specific assets.

As at 31 December 2023, 100% of the Fund's investments were considered to promote environmental and/or social characteristics because all of the Fund's investments (with the exception of index derivatives) were screened against its exclusion strategy (31 December 2022: 100%).

As at 31 December 2023, the Fund invested 19% of its net assets in sustainable investments (31 December 2022: 27%). 15% of net assets were invested in sustainable investments which contributed to an environmental objective (31 December 2022: 21%).

\*\*The Fund also held 4% of net assets in sustainable investments which contribute to a social objective (31 December 2022: 6%). It should be noted that the Fund has not made any commitment to invest in sustainable investments which contribute to a social objective and such investments should be considered incidental in nature.

### In which economic sectors were the investments made?

Sector	% of Net Assets
Emerging Markets	59.89%
Government Related	28.64%
Net Other Short Duration Instruments	11.47%

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2023 have been used.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As at 31 December 2023, the percentage of investments that were aligned with the EU Taxonomy is 0% (31 December 2022: 0%). This figure has not been subject to an assurance provided by an auditor nor has it been reviewed by any other third party.

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy1?

Yes:

In fossil gas In nuclear energy

No

To comply with the EU Taxonomy, the criteria for **fossil** gas include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

#### **Transitional** activities are

activities for which lowcarbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

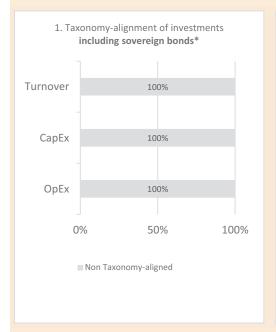

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

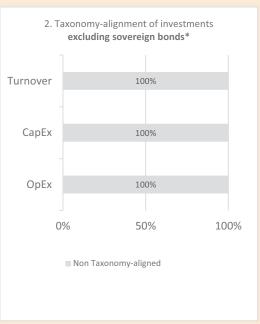

### Sustainable Finance Disclosure Regulation and Taxonomy Regulation Disclosures (Unaudited) (Cont.)

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

<sup>\*</sup> For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

### What was the share of investments made in transitional and enabling activities?

As at 31 December 2023, the proportion of investments of the Fund in transitional and enabling activities during the reference period was 0% (31 December 2022: 0%).

## What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Fund does not commit to invest in investments aligned with the EU Taxonomy but does commit to invest in sustainable investments which contribute to an environmental objective. As at 31 December 2023, the proportion of sustainable investments of the Fund which contributed to an environmental objective which were not assessed against the EU Taxonomy and therefore categorised as "Other Environmental" investments above is 15% (31 December 2022: 21%). For further information with respect to sustainability-related data availability and data challenges please refer to https://europe.pimco.com/en-eu/our-firm/global-advisors-ireland.

### What was the share of socially sustainable investments?

As noted above, as at 31 December 2023, the Fund held 4% of net assets in sustainable investments which contributed to a social objective during the period covered by these financial statements (31 December 2022: 6%). As the Fund has not made any commitment to invest in sustainable investments which contribute to a social objective, such investments should be considered incidental in nature.

## What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2023, 100% of the Fund's investments were considered to promote environmental and/or social characteristics because all of the Fund's investments (with the exception of index derivatives) were screened against its exclusion strategy (31 December 2022: 100%).

As outlined in greater detail above, as at 31 December 2023, the Fund invested 19% of its net assets in sustainable investments (31 December 2022:27%).

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers as applicable (examples of such engagement included material climate and biodiversity related matters), including for example, by seeking to encourage issuers to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitment.

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2023 have been used.

### Sustainable Finance Disclosure Regulation and Taxonomy Regulation Disclosures (Unaudited) (Cont.)

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional** activities are activities for which lowcarbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As at 31 December 2023, the percentage of investments that were aligned with the EU Taxonomy is 0% (31 December 2022: 0%). This figure has not been subject to an assurance provided by an auditor nor has it been reviewed by any other third party.

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy1?

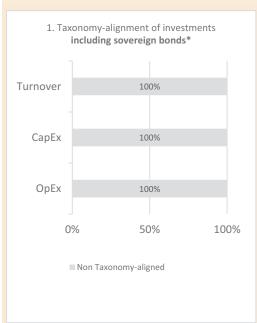

Yes:

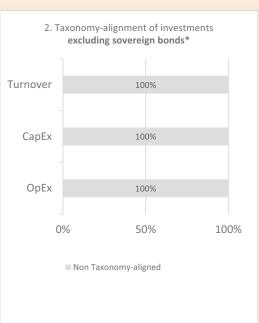

In fossil gas In nuclear energy

No

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective—see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomyalignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

As at 31 December 2023, the proportion of investments of the Fund in transitional and enabling activities during the reference period was 0% (31 December 2022: 0%).

### What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Fund does not commit to invest in investments aligned with the EU Taxonomy but does commit to invest in sustainable investments which contribute to an environmental objective. As at 31 December 2023, the proportion of sustainable investments of the Fund which contributed to an environmental objective which were not assessed against the EU Taxonomy and therefore categorised as "Other Environmental" investments above is 31% (31 December 2022: 23%). For further information with respect to sustainability-related data availability and data challenges please refer to https://europe.pimco.com/en-eu/our-firm/global-advisorsireland.

### What was the share of socially sustainable investments?

As noted above, as at 31 December 2023, the Fund held 3% of net assets in sustainable investments which contributed to a social objective during the period covered by these financial statements (31 December 2022: 2%). As the Fund has not made any commitment to invest in sustainable investments which contribute to a social objective, such investments should be considered incidental in nature.

### What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2023, 100% of the Fund's investments were considered to promote environmental and/or social characteristics because all of the Fund's investments (with the exception of index derivatives) were screened against its exclusion strategy (31 December 2022: 100%).

As outlined in greater detail above, as at 31 December 2023, the Fund invested 34% of its net assets in sustainable investments (31 December 2022: 25%).

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers as applicable (examples of such engagement included material climate and biodiversity related matters), including for example, by seeking to encourage issuers to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitment.

### **ANNEX IV**

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name:** PIMCO ESG Income Fund

Legal entity identifier: 549300TKMFF4LMUCRB73

### Environmental and/or social characteristics

#### Did this financial product have a sustainable investment objective? Yes No It promoted Environmental/Social (E/S) It made sustainable investments with characteristics and while it did not have an environmental objective: \_\_% as its objective a sustainable investment, it had a proportion of 57% in economic activities that qualify of sustainable investments as environmentally sustainable under the **EU Taxonomy** with an environmental objective in economic activities that qualify as environmentally in economic activities that do not qualify sustainable under the EU Taxonomy as environmentally sustainable under the **EU Taxonomy** with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy with a social objective\* \*\*While the Fund did invest in sustainable investments with a social objective during the period covered by this report, it has not made any commitment to invest in this category of investments and consequently any such investments acquired by the Fund should be considered incidental in nature It made sustainable investments with a It promoted E/S characteristics, but did social objective: \_\_\_% not make any sustainable investments

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Sustainable

**investment** means an investment in an

economic activity that contributes to an environmental or social objective, provided that

the investment does not significantly harm any environmental or

social objective and that the investee companies follow good

governance practices.

The **EU Taxonomy** is

a classification system

establishing a list of

environmentally

economic activities.

That Regulation does

not lay down a list of

socially sustainable

economic activities. Sustainable

investments with an environmental objective might be aligned with

the Taxonomy or not.

(EU) 2020/852,

sustainable

laid down in Regulation

# To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund's approach to sustainable investing is through the promotion of environmental and/or social characteristics (while the Fund does not have sustainable investment as its objective, it seeks to invest a portion of its assets in sustainable investments).

As detailed below, the sustainable investments held by the Fund during the reference period contributed to the environmental objectives of climate change adaptation and/or climate change mitigation.

Derivatives (with the exception of index derivatives) held by the Fund during the period were screened against the exclusion strategy implemented by the Investment Advisor and accordingly were used to promote the environmental and/or social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

### How did the sustainability indicators perform?

The attainment of each of the environmental and/or social characteristics promoted by the Fund was measured through the Investment Advisor's implementation of its exclusion strategy, issuer engagement policy and investment in certain ESG Fixed Income Securities (as further described in the section of the Prospectus entitled "ESG Fixed Income Securities") which enable issuers to raise capital to fund projects with positive environmental benefits as well as in the debt of issuers demonstrating leadership in addressing risk and opportunities around climate related change.

For example, the Fund's exclusion strategy resulted in the exclusion of certain sectors including issuers involved in Fossil Fuel related sectors (including issuers engaged principally in the oil industry, including extraction, production, refining, transportation, or the mining and sale of coal and coal-fired generation).

In addition, as part of the Fund's screening process, the Investment Advisor referred to globally accepted norms, such as, the UN Global Compact Principles and the UN Guiding Principles on Business and Human Rights, where appropriate.

### ...and compared to previous periods?

Information on the historical comparison of the Fund's sustainability-related investments is available below in response to the question "What was the proportion of sustainability-related investments?".

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Fund's underlying sustainable investments contributed to the environmental objectives of climate change mitigation and climate change adaptation during the reference period which was achieved in a variety of ways, including by way of example, investment in ESG Fixed Income Securities (as further described in the section of the Prospectus entitled **"ESG Fixed Income Securities"**) including green bonds.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Fund's sustainable investments were assessed to seek to ensure that they do not cause significant harm to any environmental or social objective. This assessment was carried out by the Investment Advisor's application of various adverse sustainability indicators, including but not limited to, exposure to Fossil Fuel related sectors (as described above) and greenhouse gas emissions.

--- How were the indicators for adverse impacts on sustainability factors taken into account?

Securities were selected according to the Investment Advisor's internal sustainability screening process. This screening process includes consideration of adverse impacts on sustainability factors including exposure to the Fossil Fuel related sectors (as described above) and exposure to military weapons. The Investment Advisor sought to mitigate principal adverse impacts including, for example, through its exclusion strategy and issuer engagement.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Advisor satisfied itself that sustainable investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights through the use of UNGC (UN Global Compact) controversies screening along with other tools including ESG scores and research as part of the investment due diligence process.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

### Sustainable Finance Disclosure Regulation and Taxonomy Regulation Disclosures (Unaudited) (Cont.)

### How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are described as those impacts of investment decisions that "result in negative effects on sustainability factors" while sustainability factors are defined as "environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters". The Investment Advisor sought to consider principal adverse impacts as part of the investment process and used a combination of methods to help mitigate principal adverse impacts including exclusions and issuer engagement.

The Fund considered the principal adverse impacts of investment decisions on sustainability factors (including but not limited to, exposure to the Fossil Fuel related sectors (as described above), the military weapons sector and greenhouse gas emissions) during the reference period.

### What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: as at 31 December 2023

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2023 have been used.

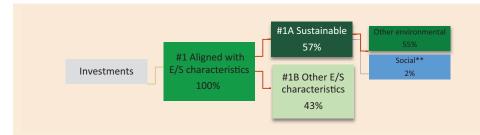

Asset allocation describes the share of investments in specific assets.

### What was the proportion of sustainability-related investments?

Information on the proportion of the Fund which promoted environmental/social characteristics and the proportion of the Fund invested in sustainable investments as at 31 December 2023 is provided below.

### What was the asset allocation?

- #1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.
- #2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

As at 31 December 2023, 100% of the Fund's investments were considered to promote environmental and/or social characteristics because all of the Fund's investments (with the exception of index derivatives) were screened against its exclusion strategy (31 December 2022: 100%).

As at 31 December 2023, the Fund invested 57% of its net assets in sustainable investments (31 December 2022: 32%). 55% of net assets were invested in sustainable investments which contributed to an environmental objective (31 December 2022: 30%).

\*\*The Fund also held 2% of net assets in sustainable investments which contribute to a social objective (31 December 2022: 2%). It should be noted that the Fund has not made any commitment to invest in sustainable investments which contribute to a social objective and such investments should be considered incidental in nature.

### In which economic sectors were the investments made?

Sector	% of Net Assets
Securitised	53.29%
U.S. Government Related	27.99%
Investment Grade Credit	19.03%
High Yield Credit	3.32%
Emerging Markets	2.91%
Other	0.21%
Net Other Short Duration Instruments	-0.48%
Non-U.S. Dollar Developed	-6.27%

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2023 have been used.

### Sustainable Finance Disclosure Regulation and Taxonomy Regulation Disclosures (Unaudited) (Cont.)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

# To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As at 31 December 2023, the percentage of investments that were aligned with the EU Taxonomy is 0% (31 December 2022: 0%). This figure has not been subject to an assurance provided by an auditor nor has it been reviewed by any other third party.

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy¹?

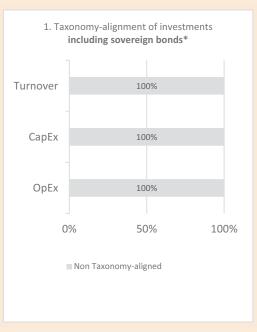

Yes:

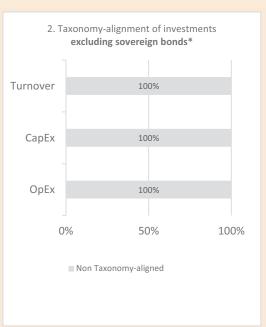

In fossil gas In nuclear energy

 $\checkmark$ 

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

<sup>\*</sup> For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

### What was the share of investments made in transitional and enabling activities?

As at 31 December 2023, the proportion of investments of the Fund in transitional and enabling activities during the reference period was 0% (31 December 2022 was 0%).

Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective—see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

### What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Fund does not commit to invest in investments aligned with the EU Taxonomy but does commit to invest in sustainable investments which contribute to an environmental objective. As at 31 December 2023, the proportion of sustainable investments of the Fund which contributed to an environmental objective which were not assessed against the EU Taxonomy and therefore categorised as "Other Environmental" investments above is 55% (31 December 2022: 30%). For further information with respect to sustainability-related data availability and data challenges please refer to https://europe.pimco.com/en-eu/our-firm/global-advisors-ireland.

### What was the share of socially sustainable investments?

As noted above, as at 31 December 2023, the Fund held 2% of net assets in sustainable investments which contributed to a social objective during the period covered by these financial statements (31 December 2022: 2%). As the Fund has not made any commitment to invest in sustainable investments which contribute to a social objective, such investments should be considered incidental in nature.

### What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2023, 100% of the Fund's investments were considered to promote environmental and/or social characteristics because all of the Fund's investments (with the exception of index derivatives) were screened against its exclusion strategy (31 December 2022: 100%).

As outlined in greater detail above, as at 31 December 2023, the Fund invested 57% of its net assets in sustainable investments (31 December 2022: 32%).

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers as applicable (examples of such engagement included material climate and biodiversity related matters), including for example, by seeking to encourage issuers to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitment.

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2023 have been used.

### What was the proportion of sustainability-related investments?

Information on the proportion of the Fund which promoted environmental/social characteristics as at 31 December 2023 is provided below.

#### Asset allocation

describes the share of investments in specific assets

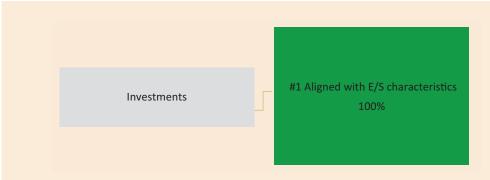

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

### **Enabling activities**

directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

What was the asset allocation?

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

As at 31 December 2023, 100% of the Fund's direct investments were considered to promote environmental and/ or social characteristics as the Fund's exclusion strategy was applied to all of its direct investments (31 December 2022: 100%). Minimum environmental or social safeguards were provided for such direct investments only and did not apply to indirect investments.

### In which economic sectors were the investments made?

Sector	% of Net Assets
Investment Grade Credit	58.29%
Government Related	37.71%
Securitised	6.37%
Emerging Markets	2.11%
High Yield Credit	1.51%
Net Other Short Duration Instruments	-5.99%

For the purposes of compiling the information disclosed above, the holdings of the Fund as at 31 December 2023 have been used.

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

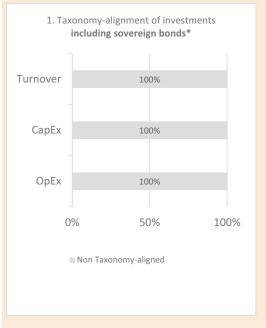

As at 31 December 2023, the percentage of investments that were aligned with the EU Taxonomy is 0% (31 December 2022 was 0%). This figure has not been subject to an assurance provided by an auditor nor has it been reviewed by any other third party.

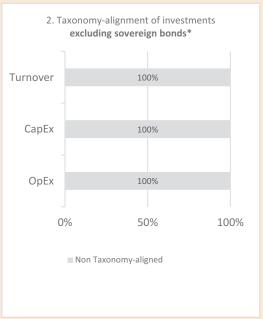

## Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy1? Yes: In fossil gas In nuclear energy No

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

## What was the share of investments made in transitional and enabling activities?

As at 31 December 2023, the proportion of investments of the Fund in transitional and enabling activities during the reference period was 0% (31 December 2022: 0%).

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2023, 100% of the Fund's direct investments were considered to promote environmental and/or social characteristics as the Fund's exclusion strategy was applied to all of its direct investments. (31 December 2022: 100%).

Minimum environmental or social safeguards were provided for such direct investments only and did not apply to indirect investments.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

### Sustainable Finance Disclosure Regulation and Taxonomy Regulation Disclosures (Unaudited) (Cont.)

# What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers as applicable (examples of such engagement included material climate related matters) including for example by encouraging issuers to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitment.

### ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name:** Euro Income Bond Fund

Legal entity identifier: SEK18YSZLD2OP25KSR60

## Environmental and/or social characteristics

### Did this financial product have a sustainable investment objective? Yes No It promoted Environmental/Social (E/S) It made sustainable investments with characteristics and while it did not have an environmental objective: \_\_% as its objective a sustainable investment, it had a proportion of % in economic activities that qualify as of sustainable investments environmentally sustainable under the **EU Taxonomy** with an environmental objective in economic activities that qualify as environmentally in economic activities that do not qualify sustainable under the EU Taxonomy as environmentally sustainable under the **EU Taxonomy** with an environmental objective in economic activities that do not qualify as environmentally sustainable under the **EU Taxonomy** with a social objective It made sustainable investments with a It promoted E/S characteristics, but did social objective: \_\_\_% not make any sustainable investments

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted environmental and/or social characteristics by operating an exclusion strategy. The Fund also promoted environmental and/or social characteristics by actively engaging with certain issuers as applicable (examples of such engagement included material climate related matters) which for example, included encouraging issuers to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

### How did the sustainability indicators perform?

The attainment of each of the environmental and/or social characteristics promoted by the Fund was measured through the Investment Advisor's implementation of its exclusion strategy, as well as the Investment Advisor's implementation of its issuer engagement policy. The Fund's exclusion strategy applies to 100% of its direct investments.

For example, the Fund's exclusion strategy resulted in the exclusion of certain sectors including issuers principally involved in coal and unconventional oil (such as arctic oil and oil sands). In addition, the Investment Advisor referred to globally accepted norms such as the UN Global Compact Principles, where appropriate.

### ...and compared to previous periods?

Information on the historical comparison of the Fund's sustainability-related investments is available below in response to the question "What was the proportion of sustainability-related investments?"

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are

attained.

Sustainable

investment means an investment in an

economic activity that contributes to an environmental or social objective, provided that

the investment does not significantly harm any environmental or

social objective and that the investee companies follow good

governance practices.

The **EU Taxonomy** is

a classification system

establishing a list of

environmentally

economic activities.

That Regulation does

not lay down a list of

socially sustainable

economic activities. Sustainable

investments with an environmental objective might be aligned with the Taxonomy or not.

(EU) 2020/852,

sustainable

laid down in Regulation

   made by investee
   companies, e.g. for a
   transition to a green
   economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

<sup>\*</sup> For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

#### What was the share of investments made in transitional and enabling activities?

As at 31 December 2023, the proportion of investments of the Fund in transitional and enabling activities during the reference period was 0%.

## What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2023, 100% of the Fund's direct investments were considered to promote environmental and/or social characteristics as the Fund's exclusion strategy was applied to all of its direct investments.

Minimum environmental or social safeguards were provided for such direct investments only and did not apply to indirect investments.

# What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers as applicable (examples of such engagement included material climate related matters) including for example by encouraging issuers to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitment.

#### ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name:** Global Bond ESG Fund

social objective: %

Legal entity identifier: 549300PFJAUUMMOPU079

## Environmental and/or social characteristics

Principal adverse **impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Sustainable

investment means an investment in an

economic activity that contributes to an environmental or social objective, provided that the investment does

not significantly harm any environmental or

social objective and that the investee companies follow good

governance practices.

The **EU Taxonomy** is

a classification system

establishing a list of

environmentally

economic activities.

That Regulation does

not lay down a list of

socially sustainable

economic activities. Sustainable investments with an

environmental objective might be aligned with the Taxonomy or not.

(EU) 2020/852,

sustainable

laid down in Regulation

#### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund's approach to sustainable investing is through the promotion of environmental and/or social characteristics (while the Fund does not have sustainable investment as its objective, it seeks to invest a portion of its assets in sustainable investments).

As detailed below, the sustainable investments held by the Fund during the reference period contributed to the environmental objectives of climate change adaptation and/or climate change mitigation.

Derivatives (with the exception of index derivatives) held by the Fund during the period were screened against the exclusion strategy implemented by the Investment Advisor and accordingly were used to promote the environmental and/or social characteristics promoted by the Fund.

not make any sustainable investments

#### How did the sustainability indicators perform?

The attainment of each of the environmental and/or social characteristics promoted by the Fund was measured through the Investment Advisor's implementation of its exclusion strategy, issuer engagement policy and investment in certain ESG Fixed Income Securities (as further described in the section of the Prospectus entitled "ESG Fixed Income Securities") which enable issuers to raise capital to fund projects with positive environmental benefits as well as in the debt of issuers demonstrating leadership in addressing risk and opportunities around climate related change.

For example, the Fund's exclusion strategy resulted in the exclusion of certain sectors including issuers involved in Fossil Fuel related sectors (including issuers engaged principally in the oil industry, including extraction, production, refining, transportation, or the mining and sale of coal and coal-fired generation).

In addition, as part of the Fund's screening process, the Investment Advisor referred to globally accepted norms, such as, the UN Global Compact Principles and the UN Guiding Principles on Business and Human Rights, where appropriate.

#### ...and compared to previous periods?

Information on the historical comparison of the Fund's sustainability-related investments is available below in response to the question "What was the proportion of sustainability-related investments?".

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Fund's underlying sustainable investments contributed to the environmental objectives of climate change mitigation and climate change adaptation during the reference period which was achieved in a variety of ways, including by way of example, investment in ESG Fixed Income Securities (as further described in the section of the Prospectus entitled "ESG Fixed Income Securities") including green bonds.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Fund's sustainable investments were assessed to seek to ensure that they do not cause significant harm to any environmental or social objective. This assessment was carried out by the Investment Advisor's application of various adverse sustainability indicators, including but not limited to, exposure to Fossil Fuel related sectors (as described above) and greenhouse gas emissions.

-- How were the indicators for adverse impacts on sustainability factors taken into account?

Securities were selected according to the Investment Advisor's internal sustainability screening process. This screening process includes consideration of adverse impacts on sustainability factors including exposure to the Fossil Fuel related sectors (as described above) and exposure to military weapons. The Investment Advisor sought to mitigate principal adverse impacts including, for example, through its exclusion strategy and issuer engagement.

-- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Advisor satisfied itself that sustainable investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights through the use of UNGC (UN Global Compact) controversies screening along with other tools including ESG scores and research as part of the investment due diligence process.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

#### How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are described as those impacts of investment decisions that "result in negative effects on sustainability factors" while sustainability factors are defined as "environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters". The Investment Advisor sought to consider principal adverse impacts as part of the investment process and used a combination of methods to help mitigate principal adverse impacts including exclusions and issuer engagement.

The Fund considered the principal adverse impacts of investment decisions on sustainability factors (including but not limited to, exposure to the Fossil Fuel related sectors (as described above), the military weapons sector and greenhouse gas emissions) during the reference period.

#### What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion **of investments** of the financial product during the reference period which is: as at 31 December 2023

> For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2023 have been used.

#### What was the proportion of sustainability-related investments?

Information on the proportion of the Fund which promoted environmental/social characteristics and the proportion of the Fund invested in sustainable investments as at 31 December 2023 is provided below.

#### What was the asset allocation?

**Asset allocation** describes the share of investments in specific assets.

- **#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.
- **#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

As at 31 December 2023, 100% of the Fund's investments were considered to promote environmental and/or social characteristics because all of the Fund's investments (with the exception of index derivatives) were screened against its exclusion strategy (31 December 2022: 100%).

As at 31 December 2023, the Fund invested 18% of its net assets in sustainable investments (31 December 2022: 15%). 16% of net assets were invested in sustainable investments which contributed to an environmental objective (31 December 2022: 14%).

\*\*The Fund also held 2% of net assets in sustainable investments which contribute to a social objective (31 December 2022: 1%). It should be noted that the Fund has not made any commitment to invest in sustainable investments which contribute to a social objective and such investments should be considered incidental in nature.

#### In which economic sectors were the investments made?

Sector	% of Net Assets
Government Related	52.34%
Securitised	31.33%
Investment Grade Credit	13.30%
Inflation Linked	4.05%
Emerging Markets External	3.64%
Covered Bonds and Pfandbriefe	2.00%
Other	0.17%
Municipals	0.10%
Emerging Markets Local	-0.71%
Net Other Short Duration Instruments	-6.22%

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2023 have been used.

To comply with the EU Taxonomy, the criteria for **fossil** gas include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear** energy, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As at 31 December 2023, the percentage of investments that were aligned with the EU Taxonomy is 0% (31 December 2022: 0%). This figure has not been subject to an assurance provided by an auditor nor has it been regioused by any other third party.

#### What was the share of investments made in transitional and enabling activities?

As at 31 December 2023, the proportion of investments of the Fund in transitional and enabling activities during the reference period was 0% (31 December 2022: 0%).

# What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Fund does not commit to invest in investments aligned with the EU Taxonomy but does commit to invest in sustainable investments which contribute to an environmental objective. As at 31 December 2023, the proportion of sustainable investments of the Fund which contributed to an environmental objective which were not assessed against the EU Taxonomy and therefore categorised as "Other Environmental" investments above is 16% (31 December 2022: 14%). For further information with respect to sustainability-related data availability and data challenges please refer to <a href="https://europe.pimco.com/en-eu/our-firm/global-advisors-ireland">https://europe.pimco.com/en-eu/our-firm/global-advisors-ireland</a>.

#### What was the share of socially sustainable investments?

As noted above, as at 31 December 2023, the Fund held 2% of net assets in sustainable investments which contributed to a social objective during the period covered by these financial statements (31 December 2022: 1%). As the Fund has not made any commitment to invest in sustainable investments which contribute to a social objective, such investments should be considered incidental in nature.

#### What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2023, 100% of the Fund's investments were considered to promote environmental and/or social characteristics because all of the Fund's investments (with the exception of index derivatives) were screened against its exclusion strategy (31 December 2022: 100%).

As outlined in greater detail above, as at 31 December 2023, the Fund invested 18% of its net assets in sustainable investments (31 December 2022: 15%).

#### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers as applicable (examples of such engagement included material climate and biodiversity related matters), including for example, by seeking to encourage issuers to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitment.

#### **ANNEX IV**

It made sustainable investments with a social objective:%	It promoted E/S characteristics, but did not make any sustainable investments			

Principal adverse **impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

#### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund's approach to sustainable investing is through the promotion of environmental and/or social characteristics (while the Fund does not have sustainable investment as its objective, it seeks to invest a portion of its assets in sustainable investments).

As detailed below, the sustainable investments held by the Fund during the reference period contributed to the environmental objectives of climate change adaptation and/or climate change mitigation.

Derivatives (with the exception of index derivatives) held by the Fund during the period were screened against the exclusion strategy implemented by the Investment Advisor and accordingly were used to promote the environmental and/or social characteristics promoted by the Fund.

#### How did the sustainability indicators perform?

The attainment of each of the environmental and/or social characteristics promoted by the Fund was measured through the Investment Advisor's implementation of its exclusion strategy, issuer engagement policy and investment in certain ESG Fixed Income Securities (as further described in the section of the Prospectus entitled "ESG Fixed Income Securities") which enable issuers to raise capital to fund projects with positive environmental benefits as well as in the debt of issuers demonstrating leadership in addressing risk and opportunities around climate related change.

For example, the Fund's exclusion strategy resulted in the exclusion of certain sectors including issuers involved in Fossil Fuel related sectors (including issuers engaged principally in the oil industry, including extraction, production, refining, transportation, or the mining and sale of coal and coal-fired generation).

In addition, as part of the Fund's screening process, the Investment Advisor referred to globally accepted norms, such as, the UN Global Compact Principles and the UN Guiding Principles on Business and Human Rights, where appropriate.

#### ...and compared to previous periods?

Information on the historical comparison of the Fund's sustainability-related investments is available below in response to the question "What was the proportion of sustainability-related investments?".

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Fund's underlying sustainable investments contributed to the environmental objectives of climate change mitigation and climate change adaptation during the reference period which was achieved in a variety of ways, including by way of example, investment in ESG Fixed Income Securities (as further described in the section of the Prospectus entitled "ESG Fixed Income Securities") including green bonds.

#### How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Fund's sustainable investments were assessed to seek to ensure that they do not cause significant harm to any environmental or social objective. This assessment was carried out by the Investment Advisor's application of various adverse sustainability indicators, including but not limited to, exposure to Fossil Fuel related sectors (as described above) and greenhouse gas emissions.

How were the indicators for adverse impacts on sustainability factors taken into account?

Securities were selected according to the Investment Advisor's internal sustainability screening process. This screening process includes consideration of adverse impacts on sustainability factors including exposure to the Fossil Fuel related sectors (as described above) and exposure to military weapons. The Investment Advisor sought to mitigate principal adverse impacts including, for example, through its exclusion strategy and issuer engagement.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Advisor satisfied itself that sustainable investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights through the use of UNGC (UN Global Compact) controversies screening along with other tools including ESG scores and research as part of the investment due diligence process.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

## How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are described as those impacts of investment decisions that "result in negative effects on sustainability factors" while sustainability factors are defined as "environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters". The Investment Advisor sought to consider principal adverse impacts as part of the investment process and used a combination of methods to help mitigate principal adverse impacts including exclusions and issuer engagement.

The Fund considered the principal adverse impacts of investment decisions on sustainability factors (including but not limited to, exposure to the Fossil Fuel related sectors (as described above), the military weapons sector and greenhouse gas emissions) during the reference period.

#### What was the share of socially sustainable investments?

As noted above, as at 31 December 2023, the Fund held 7% of net assets in sustainable investments which contributed to a social objective during the period covered by these financial statements (the figure as at 31 December 2022 was 5%). As the Fund has not made any commitment to invest in sustainable investments which contribute to a social objective, such investments should be considered incidental in nature.

#### What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2023, 100% of the Fund's investments were considered to promote environmental and/or social characteristics because all of the Fund's investments (with the exception of index derivatives) were screened against its exclusion strategy (31 December 2022: 100%).

As outlined in greater detail above, as at 31 December 2023, the Fund invested 57% of its net assets in sustainable investments (31 December 2022: 60%).

2020/852.

# What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers as applicable (examples of such engagement included material climate and biodiversity related matters), including for example, by seeking to encourage issuers to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitment.

#### ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Global Low Duration Real Return Fund

Legal entity identifier: 5493004EUSX3DN7B3B79

## Environmental and/or social characteristics

#### Did this financial product have a sustainable investment objective? Yes No It promoted Environmental/Social (E/S) It made sustainable investments with characteristics and while it did not have an environmental objective: \_\_% as its objective a sustainable investment, it had a proportion of % in economic activities that qualify as of sustainable investments environmentally sustainable under the **EU Taxonomy** with an environmental objective in economic activities that qualify as environmentally in economic activities that do not qualify sustainable under the EU Taxonomy as environmentally sustainable under the **EU Taxonomy** with an environmental objective in economic activities that do not qualify as environmentally sustainable under the **EU Taxonomy** with a social objective It made sustainable investments with a It promoted E/S characteristics, but did social objective: \_\_\_% not make any sustainable investments

#### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted environmental and/or social characteristics by operating an exclusion strategy. The Fund also promoted environmental and/or social characteristics by actively engaging with certain issuers as applicable (examples of such engagement included material climate related matters) which for example, included encouraging issuers to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitments.

## How did the sustainability indicators perform?

The attainment of each of the environmental and/or social characteristics promoted by the Fund was measured through the Investment Advisor's implementation of its exclusion strategy, as well as the Investment Advisor's implementation of its issuer engagement policy. The Fund's exclusion strategy applies to 100% of its direct investments.

For example, the Fund's exclusion strategy resulted in the exclusion of certain sectors including issuers principally involved in coal and unconventional oil (such as arctic oil and oil sands). In addition, the Investment Advisor referred to globally accepted norms such as the UN Global Compact Principles, where appropriate.

#### ...and compared to previous periods?

Information on the historical comparison of the Fund's sustainability-related investments is available below in response to the question "What was the proportion of sustainability-related investments?".

not significantly harm any environmental or social objective and that the investee companies follow good governance practices. The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable

Sustainable

investment means an investment in an

economic activity that contributes to an environmental or social objective, provided that

the investment does

economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability **indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2023 have been used.

#### What was the proportion of sustainability-related investments?

Information on the proportion of the Fund which promoted environmental/social characteristics as at 31 December 2023 is provided below.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

As at 31 December 2023, 100% of the Fund's direct investments were considered to promote environmental and/ or social characteristics as the Fund's exclusion strategy was applied to all of its direct investments (31 December 2022: 100%). Minimum environmental or social safeguards were provided for such direct investments only and did not apply to indirect investments.

#### In which economic sectors were the investments made?

Sector	% of Net Assets
Inflation Linked	108.39%
Securitised	11.69%
Covered Bonds and Pfandbriefe	2.95%
Net Other Short Duration Instruments	2.79%
Emerging Markets Local	0.25%
Investment Grade Credit	0.08%
High Yield Credit	0.05%
Government Related	-26.20%

For the purposes of compiling the information disclosed above, the holdings of the Fund as at 31 December 2023 have been used.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As at 31 December 2023, the percentage of investments that were aligned with the EU Taxonomy is 0% (31 December 2022: 0%). This figure has not been subject to an assurance provided by an auditor nor has it been reviewed by any other third party.

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas

In nuclear energy

No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional** activities are

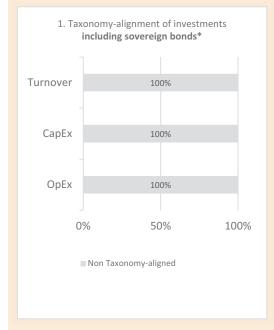

activities for which lowcarbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

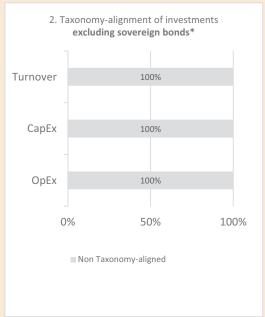

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

<sup>\*</sup> For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

#### What was the share of investments made in transitional and enabling activities?

As at 31 December 2023, the proportion of investments of the Fund in transitional and enabling activities during the reference period was 0% (31 December 2022: 0%).

# What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2023, 100% of the Fund's direct investments were considered to promote environmental and/or social characteristics as the Fund's exclusion strategy was applied to all of its direct investments. (31 December 2022: 100%).

Minimum environmental or social safeguards were provided for such direct investments only and did not apply to indirect investments.

# What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers as applicable (examples of such engagement included material climate related matters) including for example by encouraging issuers to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitment.

#### Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does

not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

#### ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name:** Low Duration Opportunities ESG Fund Legal entity identifier: 549300M7ZPBX56GB2C41

#### Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities.

companies follow good

governance practices.

That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## Environmental and/or social characteristics

#### Did this financial product have a sustainable investment objective? Yes No It promoted Environmental/Social (E/S) It made sustainable investments with / characteristics and while it did not have an environmental objective: \_\_% as its objective a sustainable investment, it had a proportion of 60% in economic activities that qualify as of sustainable investments environmentally sustainable under the EU Taxonomy with an environmental objective in economic activities that qualify as environmentally in economic activities that do not qualify as sustainable under the EU Taxonomy environmentally sustainable under the EU Taxonomy with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy with a social objective \*\* \*While the Fund did invest in sustainable investments with a social objective during the period covered by this report, it has not made any commitment to invest in this category of investments and consequently any such investments acquired by the Fund should be considered incidental in nature It made sustainable investments with a It promoted E/S characteristics, but did social objective: % not make any sustainable investments

#### To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund's approach to sustainable investing is through the promotion of environmental and/or social characteristics (while the Fund does not have sustainable investment as its objective, it seeks to invest a portion of its assets in sustainable investments).

As detailed below, the sustainable investments held by the Fund during the reference period contributed to the environmental objectives of climate change adaptation and/or climate change mitigation.

Derivatives (with the exception of index derivatives) held by the Fund during the period were screened against the exclusion strategy implemented by the Investment Advisor and accordingly were used to promote the environmental and/or social characteristics promoted by the Fund.

**Sustainability indicators** measure
how the environmental
or social characteristics
promoted by the
financial product are
attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

#### How did the sustainability indicators perform?

The attainment of each of the environmental and/or social characteristics promoted by the Fund was measured through the Investment Advisor's implementation of its exclusion strategy, issuer engagement policy and investment in certain ESG Fixed Income Securities (as further described in the section of the Prospectus entitled "ESG Fixed Income Securities") which enable issuers to raise capital to fund projects with positive environmental benefits as well as in the debt of issuers demonstrating leadership in addressing risk and opportunities around climate related change.

For example, the Fund's exclusion strategy resulted in the exclusion of certain sectors including issuers involved in Fossil Fuel related sectors (including issuers engaged principally in the oil industry, including extraction, production, refining, transportation, or the mining and sale of coal and coal-fired generation).

In addition, as part of the Fund's screening process, the Investment Advisor referred to globally accepted norms, such as, the UN Global Compact Principles and the UN Guiding Principles on Business and Human Rights, where appropriate.

#### ...and compared to previous periods?

Information on the historical comparison of the Fund's sustainability-related investments is available below in response to the question "What was the proportion of sustainability-related investments?".

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Fund's underlying sustainable investments contributed to the environmental objectives of climate change mitigation and climate change adaptation during the reference period which was achieved in a variety of ways, including by way of example, investment in ESG Fixed Income Securities (as further described in the section of the Prospectus entitled "ESG Fixed Income Securities") including green bonds.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Fund's sustainable investments were assessed to seek to ensure that they do not cause significant harm to any environmental or social objective. This assessment was carried out by the Investment Advisor's application of various adverse sustainability indicators, including but not limited to, exposure to Fossil Fuel related sectors (as described above) and greenhouse gas emissions.

--- How were the indicators for adverse impacts on sustainability factors taken into account?

Securities were selected according to the Investment Advisor's internal sustainability screening process. This screening process includes consideration of adverse impacts on sustainability factors including exposure to the Fossil Fuel related sectors (as described above) and exposure to military weapons. The Investment Advisor sought to mitigate principal adverse impacts including, for example, through its exclusion strategy and issuer engagement.

- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Investment Advisor satisfied itself that sustainable investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights through the use of UNGC (UN Global Compact) controversies screening along with other tools including ESG scores and research as part of the investment due diligence process.

The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

#### How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are described as those impacts of investment decisions that "result in negative effects on sustainability factors" while sustainability factors are defined as "environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters". The Investment Advisor sought to consider principal adverse impacts as part of the investment process and used a combination of methods to help mitigate principal adverse impacts including exclusions and issuer engagement.

The Fund considered the principal adverse impacts of investment decisions on sustainability factors (including but not limited to, exposure to the Fossil Fuel related sectors (as described above), the military weapons sector and greenhouse gas emissions) during the reference period.

For the purposes of compiling the information disclosed above, the investments of the Fund as at 31 December 2023 have been used.

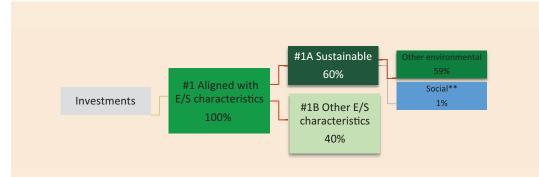

**Asset allocation** describes the share of investments in specific assets.

#### What was the proportion of sustainability-related investments?

Information on the proportion of the Fund which promoted environmental/social characteristics and the proportion of the Fund invested in sustainable investments as at 31 December 2023 is provided below.

What was the asset allocation?

- **#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.
- **#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

As at 31 December 2023, 100% of the Fund's investments were considered to promote environmental and/or social characteristics because all of the Fund's investments (with the exception of index derivatives) were screened against its exclusion strategy (31 December 2022: 100%).

As at 31 December 2023, the Fund invested 60% of its net assets in sustainable investments (31 December 2022: 29%). 59% of net assets were invested in sustainable investments which contributed to an environmental objective (31 December 2022: 28%).

\*\*The Fund also held 1% of net assets in sustainable investments which contribute to a social objective (31 December 2022: 1%). It should be noted that the Fund has not made any commitment to invest in sustainable investments which contribute to a social objective and such investments should be considered incidental in nature.

## In which economic sectors were the investments made?

Sector	% of Net Assets

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As at 31 December 2023, the percentage of investments that were aligned with the EU Taxonomy is 0% (31 December 2022: 0%). This figure has not been subject to an assurance provided by an auditor nor has it been

	other third party.		- p. o v. a c a	, an additor nor nas it see.
		t invest in fossil gas and / th the EU Taxonomy¹?	or nuclea	r energy related
	Yes:			
		In fossil gas		In nuclear energy
$\checkmark$	No			

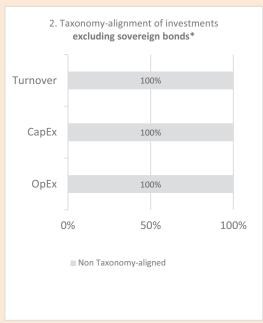

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

<sup>\*</sup> For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

#### What was the share of investments made in transitional and enabling activities?

As at 31 December 2023, the proportion of investments of the Fund in transitional and enabling activities during the reference period was 0% (31 December 2022: 0%).

## What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Fund does not commit to invest in investments aligned with the EU Taxonomy but does commit to invest in sustainable investments which contribute to an environmental objective. As at 31 December 2023, the proportion of sustainable investments of the Fund which contributed to an environmental objective which were not assessed against the EU Taxonomy and therefore categorised as "Other Environmental" investments above is 59% (31 December 2022: 28%). For further information with respect to sustainability-related data availability and data challenges please refer to <a href="https://europe.pimco.com/en-eu/our-firm/global-advisors-ireland">https://europe.pimco.com/en-eu/our-firm/global-advisors-ireland</a>.

#### What was the share of socially sustainable investments?

As noted above, as at 31 December 2023, the Fund held 1% of net assets in sustainable investments which contributed to a social objective during the period covered by these financial statements (the figure as at 31 December 2022 was 1%). As the Fund has not made any commitment to invest in sustainable investments which contribute to a social objective, such investments should be considered incidental in nature.

# What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

As noted above, as at 31 December 2023, 100% of the Fund's investments were considered to promote environmental and/or social characteristics because all of the Fund's investments (with the exception of index derivatives) were screened against its exclusion strategy (31 December 2022: 100%).

As outlined in greater detail above, as at 31 December 2023, the Fund invested 60% of its net assets in sustainable investments (31 December 2022: 29%).

#### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Advisor actively engaged with certain issuers as applicable (examples of such engagement included material climate and biodiversity related matters), including for example, by seeking to encourage issuers to align to the Paris Agreement, adopt science-based targets for carbon emissions reduction and/or broadly advance their sustainability commitment.
